

Younger Yu Introduces Natural Aloe Vera And MSM Soothing Gel To The Public

August 31, 2015

August 31, 2015 - PRESSADVANTAGE -

London, England based Younger Yu has recently launched a natural Aloe Vera and MSM soothing gel on the Amazon marketplace. The product offers natural relief for a number of skin irritations.

The blend of Aloe Vera, MSM, and turmeric provides natural relief for muscle pain, sunburn, irritated or chapped skin, and offers non sticky bug bite relief. It has a peppermint fragrance, and comes in a 4 ounce bottle, complete with pump.

Aloe Vera has been used for centuries for minor burns and scrapes, as an anti-inflammatory, and a healing agent. It is often used as a topical pain cream for scrapes and sunburns. It is commonly included in many sunburn gels. Younger Yu's Natural Aloe Vera and MSM Soothing Gel includes a healthy dose of natural Aloe Vera extract, in addition to Turmeric and MSM.

MSM is an organic sulfur compound that has been used for decades as a natural pain reliever for those with arthritis and other inflammatory illnesses. It helps to alleviate pain while helping to bring down inflammation at the same time.

The company cites the inclusion of turmeric as one of the reasons the gel is so effective. Deon Bryan, spokesperson for Younger Yu, recently commented, "Turmeric is our super ingredient. It is used to reduce inflammation, and it's what gives our gel its unique coloring, which many people find fascinating."

"This worked perfectly on my son's mosquito bites. He normally hates using any type of ointment, but this one didn't sting, and he even asked to use it again for another bite. He loves the peppermint fragrance," says an Amazon customer.

Another says, "I went to the beach for the first time this summer, and didn't even think about sunscreen. It really wasn't that sunny. Anyway, I ended up a horribly bright shade of red and was so miserable. My mother had this gel and it worked such wonders. It even helped my redness to tan out instead of peeling. I now have a bottle in my beach bag."

The gel is made in the USA, and backed by the company's 30-day money back guarantee.
