DivorceEZ, which is based in Calgary, Alberta, Canada, has revolutionized the way the divorce process works. This was achieved by offering the first portable, low cost divorce in Canada. In so doing, they aim to make the process of getting a divorce as easy and stress free as possible. A recent article in the Western Mass News, which can be found at <http://www.westernmassnews.com/story/29588797/divorceez-introduces-portable-divorce-in-calgary-and-surrounding-area>, discussed this service.

"Our company is composed of divorce consultants that are more than ready to help couples undergo a divorce," says supervisor Frances from DivorceEZ. "DivorceEZ ensures the divorce process is completed within the shortest possible amount of time."

By being a portable service, the company is ensuring that those with busy lifestyles or children are still able to complete the process with ease. DivorceEZ wants to make sure people are able to use an efficient divorce service, while at the same time trying to work towards achieving an amicable parting. This is why they will always have open lines of communication with their clients, again bringing down levels of stress that is often

associated with this difficult time in their lives. Further details can be found on <http://www.digitaljournal.com/pr/2624880>.

The service offered has been appreciated by those who have used it to date. Sherry Watson of Calgary states, "I wanted to be divorced for years but due to my paralysis was unable to get around and actually get the job done. I found www.divorceEZ.ca on the internet. Thanks to DivorceEZ my divorce is underway and I did not have to leave my home. If you are looking for a Calgary Divorce that is easy and stress-free then call DivorceEZ."

As shown on the DivorceEZ website, <http://www.divorceez.ca>, the portable divorce services are currently available in the Calgary area only. This area includes Okotoks, Airdrie, Carstairs, and Didsbury. They are currently considering expanding their services to have a wider reach. It is not yet clear if and when this will happen, but it would mean that even more people will be able to get a divorce without the associated stress, heartaches, animosity, and other negative feelings and emotions.
