

Hanging Scale a Perfect Present for Hunters, Farmers or Fishermen

December 11, 2019

December 11, 2019 - PRESSADVANTAGE -

This is a holiday season and, Modern Step, a trusted supplier of scales on Etsy and Amazon, is pleased to recommend their hanging scales with an accurate sensor as a part of a fisher and hunter appliance.

Modern Step can offer two types of crane scales ? either heavy-duty aluminum case or light plastic case. Both are extra easy to handle and so compact that they will fit right into the pocket. Each of Modern Step?s crane scales has a wide field of application, for example, it will be handy in garage or farm, not mentioning hunting or fishing season. Besides, it could be maintained in a medical manual patient Hoyer lift. Basically, with this balanced crane scale, it?s possible to weigh anything from animals (pig, deer, duck, hog, fishes, game) or livestock feed to humans up to 660lbs. All scales are securely packaged and shipped along with stainless steel shackle and hook, user guide and batteries.

Company spokesperson Paul says, "Our scales are not only compact and sturdy but also have high precision weight sensor." He explains that the Modern Step's scale is full of advantages. First of all, there are several modes for every type of weighing – kg, lb, newtons. Furthermore, there is a hold mode and when the capacity is surpassed, the scale will alert with a safe overload indication. Secondly, the large LCD with a gentle black backlight and extra-large font and bold numbers makes it easy to read results, even in dimly light areas.

"There is no need looking further for gifts for men. Try our digital hanging scales and upgrade weighting experience to a new level of quality. At Modern Step, our main goal is 100% client satisfaction. That's why our electronic crane scales are manufactured under strict quality control policies and are carefully hand-packed to have the best quality possible on the market," says Paul.

Modern Step is a trustworthy scales supplier, as illustrated by many positive reviews and recommendations they have received online. The company is founded by a passionate young man who decided to leave his job as an engineer and chase his dream to start his business. Many of their previous customers also attest to the quality of the product as well as Modern Step's dedication to providing excellent customer service.

Tom says in a 5-Star Amazon review, "I use this to weigh my compost barrels for a science experiment I'm running. This has excellent stability (It reads the same value for a given mass many times in a row). The backlight is handy for readability. The mounting hardware is sturdy. I've had it up to 90 kg so far with no issues and at a variety of temperatures (40-75F so far). I've even measured rope tension in the horizontal direction with it, so it seems to have no challenges in different orientations either. It's exactly what I needed, and works wonderfully for my random projects!"

Meanwhile, Marsha L. Woerner. says about using the hanging scale in the Hoyer lift in her own Amazon review, "The product offers an easy and convenient way to measure the weight of a person who cannot stand. The fact that it displays either kilograms or pounds – or even Newtons – is an added convenience :-). It has a very easy and straightforward interface and makes a fabulous addition for the Hoyer lift This item has been invaluable to me!"

Lastly, Barbara A. Moretich says, "I gave one to my husband and son for their birthdays and they were so happy. The fish scales we found locally, only weighed up to 50 lbs. Not enough for a larger kingfish or tuna. My husband already used it to also weight a boat motor before shipping which saved him about \$20."

More information about Modern Step and their full range of products can be found on Etsy page or Amazon store. Furthermore, interested parties may connect with Modern Step through their official social media pages to stay up to date with their latest news and important announcements.
