December 11, 2019 - PRESSADVANTAGE -

Auto accidents account for a big number of cases in court. Insurance is supposed to cover for these accidents but in some cases, the driver behind the accidents is not insured or is under insured. Chicago Personal Injury attorneys are now offering legal services that help people involved in accidents where the motorist is uninsured.

According to the site, "All states have laws that require motorists to show proof of their financial ability to pay for personal injury and property damage to others in the event of a car, truck, or motorcycle accident. Most drivers satisfy this obligation by purchasing auto accident insurance; others cannot afford insurance or ignore this requirement. A Driver that does not carry insurance is an uninsured motorist.

"Many motorists choose to purchase the lowest amount of coverage permitted by law. Underinsured and uninsured drivers are typically unable to cover the cost of a serious accident. If you are involved in an auto accident in which the at-fault driver is underinsured or has no insurance at all, you may be able to pursue a claim with your own insurance company. If you have been injured in a serious car accident, the auto accident attorneys at the Chicago, Illinois Law Offices of Parente & Norem can help you attain the monetary

compensation to which you are entitled. Accident victims should not be responsible for the negligence or carelessness of another driver. Contact our car accident attorneys to schedule a complimentary consultation.?

Parente & Norem has the best personal injury attorneys in Chicago that can help a client through the court process in personal injury cases.
