

Meet Financial Advisor Of The Year Finalist Eric Scott

August 13, 2015

August 13, 2015 - PRESSADVANTAGE -

Eric Scott founder of Eric Scott Financial, a Saint George, Utah based financial services company, has recently been named one of the top five financial advisor finalists of the year by Retirement Advisor Magazine. The prestigious award recognizes financial advisors for overall contribution based on success in their respective fields, in addition to their trustworthiness, ethical practices, and their focus on their local community and helping clients in general.

During his more than 30 years in the finance industry, Scott has assisted a number of clients in retirement fund management, and has worked through various changes in the industry since his start.

"If you really want to help people, you've got to do a lot more than just sell life insurance," said Scott in a recent interview. "You have to become more of an overall planner and advisor."

Over his years in the industry, Scott has managed money and built a platform that enables him to help people, no matter their specific needs. Scott's grandmother ended up in a senior care facility, losing everything that she had. Scott feels that there are a number of people who want to enjoy retirement, but just do not have what they need in order to do so. He says that there are a number of senior citizens in retirement who have families who, "want to have the ability to help, but they're not being guided in the right direction."

Eric Scott Financial has been assisting clients to better control their financial futures since 1983. They teach wealth management, and how to plan for and fund retirement, regardless of the direction that the market may take.
