

Christmas Shipping Deadlines for 2019 Announced

January 06, 2020

January 06, 2020 - PRESSADVANTAGE -

Sunsella, a company based in Las Vegas, Nevada, that offers home and kitchen products online, wants to remind customers that the major carriers like UPS, FedEx, the USPS, have released their list of deadlines for those who want their packages received by Christmas. The deadline will depend on the carrier and the type of delivery requested for the package to reach its destination by Tuesday, December 24.

The online marketer of different home and kitchen products has noted that it is indeed the busiest time of the year for many people, especially for those who are in the online retail industry. With the traditional Christmas gift giving, people are busy shopping for gifts, keeping retailers and carriers on their toes. The US Postal Service alone predicts that they will be delivering around 200 million packages from December 16 to 22. The last day for their Priority Mail Express Service is December 23, except for Hawaii and Alaska. FedEx has same day deliver service for those who are really hard-pressed. People can send a package on December 25 and the recipient will get it the same day. Amazon has free same day delivery also but only for qualifying of at least \$35 for Prime members.

One of the products offered by Sunsella is a set of four silicone egg rings. Each silicone ring is made from high-grade and extra thick silicone. Each ring is non-stick and reusable and provided with a stainless steel handle to make it easy to retrieve it from the pan. These can be useful in producing perfectly round pancakes,

omelets, fried eggs, burger patties, and more. These rings are heat resistant and oven safe so that they can use on top of a pan, a barbecue grill, a griddle, or a skillet.

Another product offered by Sunsella is their stainless steel vegetable steamer. This is made of high-grade stainless steel and its diameter can be easily be adjusted to allow it to fit inside a wide range of pots or pans. It can be used to steam different kinds of food, such as desserts, chicken, fruits, dumplings, eggs, meat, seafood, vegetables, etc. It can also be used as a container for the steamed vegetables and other foods and it can be easily retrieved from within a pot or pan with its center ring or extension handle.

One convenient home and kitchen product from Sunsella is the silicone vegetable steamer. This is made primarily from high grade silicone that is food safe. It can be easily made more compact for easy storage. It can be adjusted easily to fit into a broad range of sizes of pots and pans. It cannot be damaged by heat as high as 446 degrees Fahrenheit or 230 degrees Centigrade. It also has strong and durable locking handles, which are primarily used for retrieving it from inside a pot or pan. The handles can be folded to permit the lid of the pot or pan to be closed while inside a pot or pan. It can be used to steam different kinds of food like dumplings, fruits, meat, eggs, desserts, vegetables, chicken, seafood, and many more.

Sunsella also offers the Leakproof Lunch Container. These are completely leakproof bento boxes, ensuring that soup and other liquids do not accidentally leak out of the box. It also means that the soup or sauce in one compartment will not leak into the other compartments. This bento box can also be used as a student's lunch box. Parents can plan and prepare the school lunch of their kids for the whole week and then keep these boxes in the refrigerator. In the morning, they can retrieve one box, heat it up and then give it to their children to bring to school. The same thing can be done for workers so that they can simply grab a box in the morning, heat it up, and bring it to work.

People who would like to learn more about the Sunsella home and kitchen products can check out their website or contact them through the telephone or via email.
