

Commercial Roofing Company Spartanburg SC Celebrates Their 20th Anniversary

February 18, 2020

Spartanburg, South Carolina - February 18, 2020 - PRESSADVANTAGE -

Respected Spartanburg contractor, Dave's Roofing, recently celebrated their 20th anniversary in business. In that time, they have become a fixture in their area of South Carolina by providing quality residential and business roofing services. It's a significant milestone for any family-owned and operated business that started out from humble beginnings.

Company owner, Dave Starkey, had this to say about going over the 20-year milestone, "When I look back to when we first started, it's hard to believe how much our once little Spartanburg roofing company has grown. I believe that when any company stays in business for over 20 years it says volumes as far as the quality of the work they do and how they treat their customers. That's why we take so much pride in the fact that we have now been in business for over two decades. Our company philosophy from the beginning has been simple but effective. We strive to combine quality roofing work with exceptional customer care and fair and competitive pricing. It's a philosophy that we think will help the company thrive for the next two decades also, so we are not going to change it anytime soon."

The owner says he thinks their customer service is what sets them apart from other Spartanburg roofing companies. He feels it's a big reason their business has grown so much over the last two decades. Starkey places such a high value on customer service that it's a big topic of discussion with every new employee that comes on board. He says that helps ensure the staff and employees are always on the same page when it comes to treating their customers the right way. They are also a roofing contractor that likes their customers to feel as if they are part of the Dave's Roofing family. Starkey says that's why they encourage their customers to "follow us on Facebook".

Starkey believes that there are many other practices the business has implemented over the years that have also led to their success. These include such things as offering free quotes, free roof evaluations, and standing behind every roofing job that they complete with a 100% satisfaction guarantee. They even offer

extended warranties that take the guarantees on the roofing products that they use beyond what the manufacturer offers. The company is also well-known for helping customers increase the life span of their roofs by working out innovative and effective roofing maintenance plans with them. Dave's Roofing is also a fully insured and licensed painting contractor. He says these types of things tend to let people know right away that they are a reliable and trustworthy painting contractor.

Another company trait that Starkey credits for their success is the diversity of the roofing services that they offer. Many of these services can be seen on their website at <https://davesroofingonline.com/>. They offer many helpful commercial and residential roofing services. The company's top-notch residential roofing services include everything from replacing a few shingles to extensive re-roofing jobs. Their experienced roofing techs are also very good at finding and resolving all manner of roof leaks. They work with a variety of modern roof coverings such as improved asphalt shingles and highly decorative architectural shingles.

They also offer several types of commercial roof repair and coating options. Starkey mentioned that they do work on both flat and sloped commercial roofs. One of their specialties is putting down weathertight and long-lasting roof coatings. No matter what type of commercial roofing work that they do, it is always done by experienced crews that use the best available products and always done per manufacturer specifications.
