Mobility Equipment Service and Rentals Now Available In Lake County

December 23, 2019

December 23, 2019 -
Lake County residents in need of home repair services for scooters, hospital beds, reclining lift chairs, power chairs and any of a number of other devices and appliances can find exactly the kind of service they are looking for at IL based Mobility City of Lake County. The company has a service van with which they can provide home repair and maintenance services all over Lake County.

When one?s appliances break down, it can be difficult to get them running again without the help of a qualified professional technician or mechanic. Mobility City of Lake County understands this and offers home repair services to help get each client?s systems back up and running as quickly as possible. Instead of the client having to drive to the closest repair shop, they can simply sit at home and wait for the service van to arrive and handle everything.

?We get it, you might not be able to leave your house and go out to find a repair shop to fix your scooters or power chairs,? says the company. ?Sometimes you simply don?t want to spend your afternoon looking for a repair shop, and sometimes you simply can?t leave your home at all for any of a dozen reasons. This is why we at Mobility City of Lake County work to make it easier for you to get your stuff repaired by sending a qualified technician in our fully equipped service van to carry out repairs anywhere in Lake County. If you need your mobility equipment fixed, rest assured that our mobile technicians can get your stuff back up and running in no time at all.?

The Lake County based company also offers rentals of mobility equipment. One might need a piece of equipment but this does not necessarily mean they can afford to buy it outright or that they need to buy one and keep it around permanently. Mobility City has a solution for people in such a predicament. The company rents out scooters, hospital beds, reclining lift chairs and power chairs, allowing those in need of such equipment to simply rent it for as long as they need to. One can find Mobility City of Lake County on Facebook as well.

?You don?t have to buy a new power chair if you don?t need one,? says Mobility City. ?Sometimes, all you need is a scooter or reclining lift chair for a few weeks and we can help you get exactly what you need. We have a showroom where you can come and try out some of our equipment and see if it meets your needs before you choose to rent it. You are under no obligation once you try one of our devices, but we are quite sure you?ll find exactly the kind of device you need.?

The company regularly receives great reviews from many of their Lake County customers. ?Had a factory installed issue with my new electric lift for my mobile scooter,? says one 5-Star review on Google Maps. ?I called Kevin, the owner, and explained the issue. Kevin immediately got Mark, a technician on the phone. This was all late Friday, and I thought I would not be able to use my car until Monday. Mark said he would come and fix the issue. Arriving prior to dark, Mark made a few diagnoses and, after undoing the electric box, he discovered the issue. After a run to Menards for screws, Mark reassembled the box and, voila, he had me up and running. Now this is what I call Customer Service. Thank you, Kevin and Mark.?

Another customer left a similar review on the same platform, stating, ?We needed a wheelchair for my son after his recent surgery. The customer service was fantastic! They were very accommodating and answered all our questions. The wheelchair is very clean, comfortable and easy to use. I was very happy with this company and that my son was able to get outside with the use of the wheelchair from Mobility City.?

Those looking for more information on the company and their services may find Mobility City on Google, their website and other online resources. Tim Bartley of Mobility City of Lake County is also available if interested parties wish to follow up on any further inquiries.
