

Cash Offer On House: We Buy Houses In Boston, MA

December 23, 2019

December 23, 2019 - PRESSADVANTAGE -

Landrum, South Carolina based Cash Offer On House has expanded their services to reach the Boston, Massachusetts area, where they will now be offering a prompt solution for homeowners who wish to receive a prompt all-cash offer for their property. The company has been involved in the real estate industry for several years, a period over which they have earned a distinguished reputation for being one of the best options to sell a property to in the US. More information on the company's new expansion is available here: <https://cashofferonhouse.com/massachusetts/boston/>.

As the company states, the traditional home-selling experience is terrible, even with a real estate agent involved. Properties tend to spend months on the market without receiving any concise offers, leading the homeowner to lower their asking price constantly in the hopes of attracting a potential buyer who is ready to purchase their property at a discounted price. Even after finding a buyer, the transaction itself presents a new set of obstacles, especially since the amount of paperwork necessary is outrageous and takes a long time to complete.

Cash Offer on House seeks to facilitate this process for their clients, offering an alternative to the traditional lengthy process in a manner that takes no more than a few weeks, without any complications or unnecessary hassle. Don Phelps, a representative of the real estate investment company, states, "We understand that not everyone can afford to wait for months without any reassurance that they will sell their property, and we are here to offer a solution to this problem. We will buy your house in the condition that it is in right now, without any renovations or repairs necessary, producing a fair all-cash offer that we can fulfill within the next couple of weeks. Our expertise and knowledge of the industry allow us to fulfill these transactions more quickly than any other company, without any fees or additional charges. This is simply the best way to receive cash for your home without having to wait for months, nor paying a fee to your real estate agent."

The company says that the first step in their home buying process is to gather information about their client's property, which can be done entirely over the phone until an in-person meeting is scheduled. During this

meeting, a representative of the company will answer any inquiries that the homeowner may have and present them with a no-compromises offer for their property, in the condition that it is currently in. The company states that they can follow through with this offer at their client's convenience, with closing times set as soon as a couple of weeks after the initial meeting. "We are real estate investors, and our promise towards our clients is a hassle-free, no complications process," states Phelps. "There are several reasons why you may need to sell your house, and we are prepared to deal with any situation that you may find yourself in. We have had clients who seek to sell a property that they have just inherited, others dealing with foreclosure, and many other complicated situations. Reach out to us, and we reassure you that we can find a solution to your needs."

Cash Offer on House maintains that this is possible due to the extensive experience that the company's team possesses, which allows them to easily navigate the home-buying process and overcome any challenges that are often found within. This includes the ability to promptly handle any and all paperwork necessary to speed up the process and provide the fastest closing times in the market. These efforts to facilitate the home-selling process extend to other areas of their services as well; the company has maintained steady growth over the years and is now active in 48 states across the US. Aside from buying properties all across Boston, they also buy houses in Alabama, New York, Ohio, Illinois, Washington, and Pennsylvania, among several other locations.
