

Anchorage Dentist Receives New Five Star Review

December 31, 2019

December 31, 2019 - PRESSADVANTAGE -

Healthy Smiles Dental, based in Anchorage, Alaska, has announced that they have received a new 5-Star review from one of their patients, shared on the Health Grades review site. Many reviews for the practice can be found online on Google and other platforms.

The review highlights why Healthy Smiles Dental is a popular option for those who live in Anchorage and its surrounding communities. It says, "Dr. Preece and his staff are amazing. He gave me all the options I needed to make the right choice in my oral treatment. I can't thank them enough."

Dr. Terry J. Preece, who heads the practice, responds, "We want everyone to have the most healthy and beautiful smile they deserve. Helping them understand the paths they may take so that they feel confident in their choices is all part of the service. We know that many adults still fear going to the dentist, so we have a range of techniques we can use to help them have the most comfortable experience possible as they learn how to prevent dental disease. If you have been putting off seeing a dentist for some time, come and see the difference we can help you make."

The practice was recently featured on the Frontal Report news site, in an article discussing why patients should get a regular checkup and catch up on any missed checkups before others start booking their spring

dental cleanings. In the article, the practice states, "Some people may find that cold weather makes their teeth feel more sensitive. Many are aware of the fact that a poor diet or other unhealthy habits can contribute to increased sensitivity at low or high temperatures, but fewer know that this is also a perfectly normal experience for healthy teeth."

The practice urges anyone who experiences sensitivity or pain related to cold weather to seek out the advice of a good dentist in Anchorage. Healthy Smiles Dental recommends that any patient looking for a dentist should pick one who recognizes that dentistry is both an art and a science. Such dentists will help them achieve the bright, healthy smile they yearn for in the greatest level of comfort. Learn more here: [Dentist Anchorage](#).

They practice offers a full range of oral care and dental services for patients of all ages (at affordable rates) with convenient early morning and evening hours for those who would struggle to fit in appointments during the day. Their office is also handicapped-accessible, with ample parking and no stairs.

Dr. Preece continues, "We don't treat dentistry like a commodity. Instead we want people to know how to prevent problems. Oral health impacts overall health, including helping prevent heart attacks and strokes. Do not fear if you have put off going to the dentist for years. The best thing is to start the new year well so that you can prevent problems going forward."

On Facebook, Becky Rampton Kotter echoes this in her recommendation, saying, "Dr. Preece was exceptionally thorough, good at his work, genuine and kind. I finally feel I have a dentist that I can trust as much as my dad (who was also a dentist)! His staff was equally kind and easy to work with, making me feel welcome. I will be taking my family to Healthy Smiles Dental for future work!"

Dr. Preece concludes, "We know that some families put off going to the dentist because they fear the cost of any ensuing procedures. However, we want them to know that we can work with most insurance plans and will help our patients receive the maximum benefits possible. We have also added financing options and payment plans so that our patients can get the treatment they need within their budget. Preventing problems is the best step a family can take, so come in and find out how best to do that."

New patients are encouraged to go to the Healthy Smiles Dental website at <https://www.anchoragehealthysmiles.com/> to get the coupon for their free Sonic Toothbrush and fill out the registration forms for new patients so they can book their examinations and cleaning appointments. Appointments can also be scheduled through the website or by calling the practice directly. Similarly, interested parties may contact Dr. Terry J. Preece to follow up on any further inquiries.
