

Reputable Wichita Roofing Company Receives Another 5 Star Review

December 30, 2019

December 30, 2019 - PRESSADVANTAGE -

Mid Kansas Exteriors Inc. announced that they have received yet another favorable review. Those at this Wichita, Kansas based roofing and exterior contractor like to share their reviews as a sign of the commitment they have to do quality work for their customers.

Here is what Genine Leggat said in her glowing review of the company, "We just had all our windows replaced and I just want to say I am so pleased with the work the crew did. They were fast and very nice guys. They did a great job cleaning up after themselves too. The windows are of high quality. We are very happy. I also wanted to say our salesperson Michael Mann is a great guy and very knowledgeable. The whole team was great. Thank you from Genine and Scott Leggat."

This recent 5-star review was taken from the companies Google Maps business listing page. The entire review can be seen here at <https://goo.gl/maps/Wm4DrEDkq19bMRY97>. On that page, there are some 24 other reviews and this contractor averages a very respectable 4.7 out of 5 stars on them.

This is another very positive review that was left about the company on that same Google Maps business listing page. In it, Don Smith offers high praise for the work this contractor did for him by saying, "My experience with Mid Kansas Exteriors was very satisfying. Great value. They always did what they said they were going to do, and they did it when they said they would. Very professional. I would have to give them my highest recommendation. Thank you."

Owner Jake Cook had this to say about the recent string of favorable reviews that Mid Kansas Exteriors Inc has received, "I feel that the staff and skilled roofing and exterior crews I have do a great job of satisfying our customers. Getting many high ratings on the reviews our customers write on us only affirms that. Even on the off chance we get an unfavorable review, we will use that to make our company even better in the future. As a locally owned and operated contractor, we owe it those in our community to give them the absolute best possible roofing and renovations work they will find in the area."

Cook says his company was established back in 1996. He says he is proud of the fact that they know work on all different size roofing and renovations projects. That includes everything from small single-family homes to apartment complexes. Cook went on to add that both his commercial and residential roofing and exterior renovation crews are among the most experienced in the area. He says that is a big part of the reason that their reviews have been so positive. That along with the fact that they are a very customer service-oriented company. His company is a member of the National Roofing Contractors Association and they have even been selected to appear on the popular ABC show ?Extreme Makeover Home Edition?.

He went on to add that they are most well known for their expert residential roofing work. They specialize in everything from small roof repairs and leak detection to putting an entire new roof on a home. Cook says they work with a variety of different roof coverings too. These include shingle, highly decorative architectural shingle, natural tile, and virtually leak-proof raised seam metal roofing panels. For those who like shingle but hate the rough midwestern weather, they even offer impact resistant shingle products.

Cook says they also offer several exterior renovation services that are very popular in the Wichita area. He says the company has a large selection of vinyl siding products that can make any home look great and better insulated too. They also do all size building window replacements and will repair or replace gutters and downspouts too.

The owner mentioned that anyone who wants more information on Mid Kansas Exteriors Inc. of Wichita can check out their website, call them or stop by in person and talk to a company representative.
