

London Emergency Drain Clearing Service Available 24/7 Over Holiday Period

December 20, 2019

December 20, 2019 - PRESSADVANTAGE -

RSJ Drains, a London based 24-hour emergency drains clearing service, has announced that the company staff is committed to providing uninterrupted drains unblocking service to fellow Londoners over the holiday period.

Information about the company's drainage services can be viewed here:
<http://rsjdrains.com/services/general-drainage-services/>.

Company Manager, Carl Rumsey, stated: "Do you have blocked drains? Is your toilet rising to the top? Do you have bad smells or an overflowing gully or manhole? Is your washing machine or sink blocked? No matter whether you are a householder or a business customer, RSJ Drains will continue to offer the same service 24 hours a day 7 days a week - also over the holiday period?."

It is an everyday fact that pipes and drains block up and not necessarily due to abuse, although fats, grease

and items such as wipes can play a part. Sometimes the drain will be damaged or have reached the end of its life, although most times clearance or drain unblocking with the most appropriate technique will offer a long-term solution. One thing is certain, nobody wants blocked drains or pipes, and this is where RSJ Drains can help without interruption also over the holiday period.

Specialist drain clearing requires using high pressure water. This is the process of using water propelled at high speeds to clean surfaces and materials. This application is particularly effective in clearance of drains as the impact of high-pressure water on a blockage is to soften or emulsify the drain blocking material. This restores flow aided by water used in the jetting process.

All RSJ Drains vans carry HPW jetting equipment. More information about RSJ Drains is available here: <http://rsjdrains.com/>.

When called upon, RSJ Drains engineers will attend the customer site and make a brief assessment of the problem, they will then be able to offer the customer the best technique to clear their blockage quickly and efficiently.

In the event that there is a structural issue with the drain, RSJ Drains vans are equipped with CCTV equipment so that the engineer can examine the defect and make a proposal for the most cost-effective solution.

?We pride ourselves in complete customer satisfaction. Our engineers will want to offer you the most cost-effective solution. Our aim is to provide complete satisfaction and ensure that the problem is resolved first time,? stated Carl Rumsey.

RSJ Drains engineers carry out functional tests on the drain once it is unblocked to give confidence that the customer will not have to call them again next week for the same problem.

Do not let a blocked drain ruin Christmas or the New Year. Anyone affected can contact RSJ Drains in London by calling +44-20-3566-6031. The company drain engineers can be with a London customer in less than two hours.
