PutskA Introduces New 4 Pack Pacifier Clips

January 06, 2020

January 06, 2020 -
PutskA, an online store that offers a variety of baby products, is pleased to announce the launch of their new 4 pack pacifier clips. The clips come in two colors, black and white, and are unisex. They are intended to make handling a pacifier easier, and their design serves to prevent them from getting lost as easily as they otherwise would. The clips are made to fit almost any kind of pacifier currently available on the market and are made with strong BPA-free plastic (which can withstand a baby?s pulling).

One of the biggest struggles parents have is keeping track of where their baby?s pacifier is. Pacifiers are small and easily lost, especially considering the fact that they spend most of their time in a baby?s mouth. Attaching a pacifier clip to the baby?s pacifier makes it much easier to handle the baby?s pacifier and find it if it is misplaced. As the product?s amazon description says, ??Where?s the pacifier?? is a question from the past when you use PutskA universal fit pacifier clips. No more falling on the floor or rolling under the couch. A clean pacifier, always, for your newborn, infant or toddler.? Check out PutskA pacifier clips online to learn more.

PutskA?s biggest concern when designing any product is the safety of the babies that will later use it. Their pacifier clips are made to be both soft and safe to ensure the safety and happiness of the baby. The clip is the correct length to hold the pacifier in place while also being long enough to keep the baby happy without them being endangered in any way. Similarly, the strap is made of a high quality, waterproof and washable material that is both soft enough to not be unpleasant for the baby to touch as well as durable enough to last as long as it is needed. There is no metal in PutskA?s pacifier clips, which practically means they will not rust or leave nasty marks on clothes.

Anyone looking for a fun and thoughtful gift for a baby shower might want to consider gifting PutskA baby clips. The unisex design, high quality materials and usefulness of the tags means that they will be greatly appreciated by any parent or parent to be. ?Buy yours now and enjoy the peace that this pacifier leash will give you,? says PutskA. ?We are so confident of the quality of this product that we give you a 3-year guarantee. You have nothing to lose.? One can shop for PutskA pacifier clips on Amazon.

Many parents have purchased the clips and found themselves very pleased with their quality, aesthetically pleasing design and usefulness. Many have even left great reviews of the product on Amazon. ?I needed a little something extra for a baby gift and these were the perfect practical gift topper,? says one 5-Star review. ?When they arrived, I checked them out to make sure they worked and were easy for adults to figure out. They're secure and, as long as you read the directions on the packaging, you'll be able to use them with ease. I love that they're gender-neutral, too.?

Another customer had this to say in their 5-Star review, ?Super cute and modern! I loved each one of these, but the one with the Xs is my favorite! It matches so many of my baby's outfits. The little clip is just as good as a more expensive clip I bought in a store, and the clip swings, allowing for my range of motion, which makes it harder for my LO to pull it off. I have accidentally washed these and they come out super clean and survive the washer and a low dry. This is a huge plus for this forgetful mama. I would definitely buy these again.?

Those interested in the pacifier clips can find out more on Facebook. PutskA encourages parents to, ?Check out our pacifier clips on FB,? to stay up to date with their latest news and announcements. Find out more about PutskA and any of their products online at their website and other online resources.
