

Lichfield NHS Dentist Offers Private Dental Care Treatments

December 23, 2019

December 23, 2019 - PRESSADVANTAGE -

Lichfield Dental Care, a respected and long established dental practice in Lichfield, Staffordshire, UK, has been providing quality dental care under the NHS for many years. The dental practice has a history of taking great care of its patients by providing thoroughly professional treatment with high standards.

More information about Lichfield Dental Care can be gleaned here: <http://www.getasmile.co.uk>.

As the NHS does not cover certain kinds of dental treatments, which mostly fall under the category of cosmetic dental treatments, many patients have in the past requested that these additional treatments be provided privately with the high standards that they were accustomed to receiving at Lichfield Dental Care.

Drs. Shahram Sabzevari and Farahnaz Mirzaie have gradually added and built a portfolio of private dental treatments at this practice over the years.

?Not only can our patients receive high quality dental care under the NHS, they can also receive additional cosmetic dental treatments privately right in our surgery. Our patients get a seamless service,? stated Dr. Sabzevari.

The private dental treatments offered in-house at Lichfield Dental Care include teeth-whitening, white fillings, denture stabilisation, porcelain veneers, crowns, bridges, dental implants and smile design.

Each of these dental treatments is well described on the Lichfield Dental Care website. As an example, dental implants web-page can be visited here: <http://getasmile.co.uk/dental-implants-lichfield-staffordshire/>.

Anyone who is not an existing patient of Lichfield Dental Care can satisfy themselves of the quality of the dental work delivered at this surgery by visiting their web-page with a smile gallery. The smile gallery includes many before and after images of smile treatments that were undertaken at the clinic. The web-page link to the smile gallery is: <http://getasmile.co.uk/dental-smile-gallery-lichfield-staffordshire/>.

Another testimony to the satisfaction, that patients have derived from the dental treatments provided at Lichfield Dental Care, are the online reviews that patients have written and published on Google.

John and Kathy G., husband and wife, who received their treatment at Lichfield Dental Care wrote: ?When you walk in and are greeted by the receptionists it all seems so professional. When you are dealt with by Mr Sabzevari, both my wife and I can?t believe how lucky we are to have such a wonderful, friendly and caring dentist.?

Julia B. left the following glowing review: ?Mr Sabzevari has been my dentist since the practice opened and I have total confidence in him. I am a nervous patient and he is always kind and considerate, taking as much time as is needed to explain what needs doing and to answer questions. I value his advice. Treatment received has always been excellent. The atmosphere at the practice is calm and cheerful and I've never had a problem getting an appointment. The dental hygienist at the practice is also excellent, very professional and thorough. I would recommend the practice to anyone.?

Interested Lichfield locals seeking a new dentist in Lichfield are encouraged to call Lichfield Dental Care and book an appointment by dialling +44-1543-264557. There is free parking available right on the clinic premises, which is very convenient for anyone visiting the dental clinic.
