

Cloud Solutions Launches Salesforce Training Institute in Chennai

August 10, 2015

August 10, 2015 - PRESSADVANTAGE -

CHENNAI, India ? Cloud Solutions, a technology training provider, announced today that it is launching a Salesforce Training Institute in Chennai. By offering Salesforce training in Chennai, the company expects to boost students' career prospects by teaching them practical Salesforce.com and Force.com skills that are increasingly in demand worldwide.

“This is a completely job-oriented program,” said Mr. Priya, of Cloud Solutions. “It’s hands-on training for Salesforce.com ? we want you to come out of our programs as a competitive IT professional in this well-paid software consulting discipline.”

Salesforce.com and its broader platform, known as Force.com, have become staples of global enterprise information technology. One of the pioneers of software-as-a-service (SaaS) computing, Salesforce.com is now one of the main incumbents for customer relationship management and numerous relative workloads at major corporations. As a result, demand is high for individuals who know how to manage Salesforce instances and develop custom applications on top of its cloud platform.

The training is based on live projects, giving students a dynamic, real world learning environment. Programs include Salesforce.com Certified Advanced Developer, Salesforce.com Certified Administrator, Salesforce.com Certified Advanced Administrator, Salesforce.com Certified Sales Cloud Consultant and Salesforce.com Certified Service Cloud Consultant.

Cloud Solutions offers focused training for individuals, start-up businesses, medium sized businesses and enterprises. The company is known for matching training programs to the precise needs of the individual or business partner. They take pride in offering a decision-maker fast track curriculum. Cloud Solutions? team of trainers consists of certified and experienced individuals who are industry experts and consultants for some of the top names in the IT industry in this part of the world.
