Calgary, AB based No Payne Roofing is pleased to share a new review from a customer who was extremely satisfied with their services. The review in question is only one of several reviews of this nature posted online that praise the company's staff and the quality of their work. Notably, No Payne Roofing's reviews are so consistently positive that they boast a 5-Star aggregate rating on the Google Maps platform.

Joel Demings writes on Google Maps, "Brody, Drew and the gang just finished re-roofing our home with Certainteed Northgate shingles; we couldn't be happier with the job they did and the facelift it gave to our house. The guys were professional, informative, friendly and did a great job cleaning up upon completion of the job. I would recommend them to anyone."

No Payne Roofing strongly believes in delivering excellent customer service as well, which is why many of the reviews they receive have personal responses from the company's leadership team. Replying to Demings, they say, "Your roof no doubt has the best warranty in the neighborhood, can't be beat! Thanks so much for the baked goods and general hospitality!" Given that their work tends to involve them spending extended periods of time on their customers' properties, they also strive to maintain a cordial relationship

during every project. The company further asserts that this approach helps them foster a sense of camaraderie and trust between their contractors and customers, ensuring that each project is carried out as fluidly as possible.

According to No Payne Roofing, this increase in efficiency is due to the fact that communication is often key in any given situation. "What a customer wants will ultimately be what we do to their home," says No Payne Roofing. "We don't quite tell them what options they should take; the most we ever do is state which of our recommendations we believe in the most. In projects where our experience allows us to see the best option much more clearly than our customer, it's up to us to earn their trust so they will feel comfortable accepting our suggestions to the benefit of their beloved home." A large part of this interplay between contractor and customer is also dependent on the quality of the work they do. Fortunately, No Payne Roofing is well known for their ability to deliver.

As stated in yet another 5-Star Google Maps review by Alim Peerani, "I reached out to Mike at No Payne Roofing since we had a leak in our kitchen exhaust and I had no idea who else to contact. I chose No Payne based on their excellent reviews and high ranked customer service. Mike put me in touch with their siding expert (Dan). Dan showed up early the day of, had excellent communication leading up to the repair date, was very professional and completed the repair at a great price! I wouldn't hesitate to recommend Mike and No Payne Roofing to any of my friends! Amazing to deal with!" As with Demings' review, the company took the time to respond to Peerani as well.
