

Hippocratic Solutions Offers Advanced Podiatry Billing Solutions

January 06, 2020

January 06, 2020 - PRESSADVANTAGE -

Hippocratic Solutions, based in Fairfield, New Jersey, has announced that they are offering advanced professional podiatry billing services. Experts from the company are capable of using the latest Web-based technology that interfaces with insurance networks with the advantage of speeding up the release of compensation for doctors of podiatric medicine (DPMs). Their trained and experienced collection agents investigate and pursue receivables from patients. For just a fraction of their payroll opportunity costs, podiatrists would be able to integrate a medical office solution from Hippocratic Solutions into their system.

Peter Koukounas, President of Hippocratic Solutions, explains, "It's no secret that podiatry billing can take up a large chunk of the medical office workday. From verifying eligibility benefits to submitting insurance claims and tracking down payments, the list of associated administrative tasks seems endless."

He continues, "DPMs have come to rely on the podiatry billing services of Hippocratic Solutions for accurate and timely podiatry billing. Our podiatry billing company has experience in delivering medical billing services and podiatry billing software for busy podiatrist offices, and our talented professionals are skilled in all facets of insurance processing and podiatric physician procedures. By incorporating Hippocratic Solutions into your

podiatry billing, you can finally end the routine of lengthy claims processing and paper chasing.?

Peter Koukounas explains that there are many advantages of outsourcing podiatry billing. These include improved business revenue, more control, adaptability, increased security, more time for patients, on-hand professionals, and lower labor costs.

Outsourced podiatry billing means more business revenue. This is because having to maintain podiatry billing software, allocating office space for billing, and investing in billing employees can mean a lot of investments in time and money. By outsourcing podiatry billing, podiatrists are able to have more time and money to make the business better.

And it may seem to be counterintuitive but outsourcing podiatry billing may provide DPMs with more control. Because the billing processes are being turned over to a team of experienced professionals, podiatrists would have better control over the processes because the team will work with the podiatrist to discover customized solutions that can enhance operational efficiency and increase cash flow. More about this can be gleaned from their website at <https://hippocratic-solutions.business.site/>.

Outsourcing podiatry billing can also enhance adaptability. Rules and regulations that govern medical billing frequently change but with an experienced team handling the billing processes, there would be no need to train billing employees on new regulations every time there is a change. The team of professionals from Hippocratic Solutions are always updated on the billing rules and regulations and will always ensure that the medical office is compliant with all of them.

Another important benefit from outsourced podiatry billing is enhanced security. With the team from Hippocratic Solutions, a third-party system is used that is 100 percent secure, encrypted and compliant with HIPAA to prevent hacking or privacy intrusions. Thus, the billing data are safer and more secure with outsourced billing.

Furthermore, outsourcing the billing processes will allow the DPMs to have more time for their patients. Having peace of mind that the billing processes are being handled by professionals, podiatrists would be able to concentrate on the treatment of their patients. Thus, the outsourced billing does not only lead to better cash flow and operational efficiency but also a better quality of life for the patients.

It is also important to note that billing professionals are always on hand for any crucial billing issues. Companies like Hippocratic Solutions have access to a huge network of industry professionals and resources that allows them to solve even the most complex billing and coding problems.

And finally, outsourced podiatry billing means reduced labor costs for the office. Having an in-house billing

team means there is a need to recruit, interview and hire billing employees, which means not only investments in time but also in money. And it also means monthly expenses because of the salaries of the billing employees, and additional expenses for the training of new billing employees.

Those who are interested in the podiatry billing solutions can check out the website of Hippocratic Solutions or their Google Maps page at <https://bit.ly/hippocratic-solutions-map>, or contact them on the phone or through email. They are open from Monday to Friday, from 8:00 am to 6:00 pm.
