## **Pensacola Flooring Company Provides Holiday Bonus Suggestion For Homeowners**

*December 31, 2019*

December 31, 2019 - PRESSADVANTAGE -

Pensacola, Fla.- On average, employees in America get a holiday bonus of about \$850. The average holiday bonus, paired with the trend for more families having access to more disposable income than the recent holidays, has allowed families to spend money where they may have shied away from before. Families are now more comfortable dedicating money to revamping their home, something that used to be neglected, especially during The Great Recession.

Emerald Coast Granite and Tile, a flooring company in Pensacola, FL, shared that this economic trend is beneficial to homeowners who need to update their flooring. Emerald Coast Granite and Tile is a full-scale countertop and flooring provider in Pensacola, Florida. They urge homeowners to use some of their Christmas bonus to maintain their home through renovating their flooring.

Many homeowners shy away from spending money on redoing their flooring because of the cost. Not to mention the fact that floors are not really a project to start on and not finish. Emerald Coast Granite and Tile urge homeowners to not view new flooring this way. They share that new floors are an investment in the overall value of the home.

Emerald Coast shares that besides increasing the overall value of the home, there are many benefits to renovating flooring. According to the tile provider in Pensacola, new flooring helps increase heating and cooling efficiency in the home. Emerald Coast shares that the money needed to heat and cool a home can be cut down considerably with new floors.

Holiday bonuses can be used for a variety of different projects or wants. But for the homeowner wanting to increase the value of their home, Emerald Coast recommends updating their flooring today. For more information on how to get started, contact Emerald Coast by phone at (850) 437-0747 or check out their website at [www.emeraldcoastgranite.net/](http://www.emeraldcoastgranite.net/).
