Reclining Lift Chair Sales And Repair Now Available At Mobility City Of Lake County

January 09, 2020

January 09, 2020 -
Grayslake, Illinois based Mobility City of Lake County would like to make local residents aware of the reclining lift chair services and repairs that they offer. They visit clients? houses, where they perform assessments and either repair whatever needs to be repaired immediately or order the necessary parts and return to do the actual repair later. The customer can always take their chair directly to Mobility City of Lake County?s repair shop to have it repaired by highly trained professionals in their fully equipped repair lab. The company has performed countless reclining lift chair repairs over the years and puts the experience and skills gained over that time to good use helping every new client who approaches them for assistance.

The company also sells and rents out lift chairs. ?We always try to start with repairing the customer's lift chair but, if that option is not viable, we also carry several models on our showroom floor in Grayslake, IL,? says Mobility City of Lake County. ?We carry models from both Pride Mobility and Golden. All new models come with a manufacturer's warranty.?

Serving people who need reclining chairs can be a critical occupation. A lot of the time, people cannot physically stand up out of their chair unless it lifts and stands them up. This can, in the event of a malfunction, leave a person stuck in their chair with no way to get out at all. Mobility City makes these emergency calls their top priority and will always send someone to handle them as soon as possible. Instead of waiting days to get a lift chair repaired, and having to go about a daily routine life feeling extremely limited, one can simply contact Mobility City and have whatever problems they may be having with their lift chair resolved quickly. The company?s power lift chair service has already helped many people, and it is Mobility City?s goal to help even more.

A power lift chair can be of great use to those who have just undergone surgery as well. When a patient is in rehab, they may need a lift chair to go about their day normally?but may not then need it after they successfully complete rehab. In such cases, it may be better to simply rent one for a few weeks, months or however long the chair is needed. Mobility City of Lake County allows their customers to rent lift chairs, a convenient solution for those who only need one temporarily.

?Mobility City brings their premier mobility equipment services and products to Lake County and McHenry County, IL,? the company says. ?Mobility City's parent company boasts more than three decades of experience in the medical equipment industry, with a focus on mobility scooters, wheelchairs, hospital beds, lift chairs and more. This has given us significant product and brand knowledge, as well as a deep understanding of how personal mobility solutions need to be.?

The company?s service vans are always fully stocked with the parts needed to successfully service any and all machines in one visit, their technicians are highly trained and committed to offering the best possible service and their company is (and always has been) committed to bringing a highly compassionate and educated approach to finding mobility solutions.

?Kevin, the owner of Mobility City, was fantastic,? says a 5-Star review of Mobility City on Google Maps. ?He set me up with a scooter after knee surgery so I could attend a trade show. He was very informative regarding how the equipment worked. He also explained how to disassemble the scooter so it could easily fit in a van or vehicle. The service was superb, couldn?t ask for anything more!?

Another client had this to say in their own 5-Star review on the same platform, ?We needed a wheelchair for my son after his recent surgery. The customer service was fantastic! They were very accommodating and answered all our questions. The wheelchair is very clean, comfortable and easy to use. I was very happy with this company, and that my son was able to get outside with the use of the wheelchair from Mobility City.?

For more information on the electric lift chair repair services offered by Mobility City, visit their website and other online resources. Interested parties are welcome to contact Tim Bartley of Mobility City of Lake County to follow up on any further inquiries as well.
