

Roof Replacement And Repair Provider Explores Four Best Roof Types For St. Louis Area Homes

January 10, 2020

WENTZVILLE, MO - January 10, 2020 - PRESSADVANTAGE -

Wentzville, Missouri based Brian Dawson Roofing & Construction is delighted to share their expertise with local property owners regarding the four best roof types for homes and commercial properties in the St. Louis area. Those looking to learn about the best types of roofs can rest assured that the advice they receive comes from an experienced team of professionals. Brian Dawson Roofing has been offering roof repair and replacement services, as well as exterior remodeling services, to the St. Charles County, MO area for over 20 years.

Laura Cameron, speaking on behalf of the company, says, "We believe that every property owner should have the right information to make an informed decision about their roof repairs and replacements. A roof should be chosen carefully based on their performance as well as their price and appearance. Longevity, maintenance and the impact on other costs should also be considered."

In their article, they discuss the features and benefits of the best four roofing options: asphalt, cedar, slate and clay. Brian Dawson Roofing & Construction has an intrinsic knowledge of each of these roofs and can advise on both new construction projects as well as roof replacements. They have elected to specialize in asphalt roofing because of its versatility, low cost and durability, but they can install any other roofing type as well if required.

The firm were recently featured on Street Insider after they were voted the best roofer in St. Charles County in 2019 by their Community News service, which is determined by those who have bought products or services from local businesses. The award reflects customer satisfaction and the quality of the service. Cameron is quoted in the article, saying, "We have always been a company that cares. We were never one of those roofing companies that only show up at your door after a severe storm has hit your neighborhood. We're a family-owned company, and we live in the neighborhood and care about our customers just as much as we care about ourselves. That's why we maintain a policy of being accountable for all of our work. That's why every job is only considered complete when the customers have expressed their satisfaction. It's truly heartwarming to see our efforts be recognized, and we promise to keep working to remain the best roofer in St. Charles County for years to come."

Brian Dawson Roofing can provide roof inspections and will help educate the property owner as they do so, covering common details like wall and/or chimney flashing, chimney cap/flue cap, and attic vent conditions as well as penetration pipe boots/sealant, hail damage, granule loss/blistered/curled shingles, uneven surfaces/soft decking and so on. Given the sheer number of projects they have taken on, they understand that a roof replacement is a big decision for any homeowner. Since they are aware of how overwhelming the process can be, they offer a free consultation for those who are deciding how best to invest in a new roof.

With over 20 years' experience serving Cottleville, Dardenne Prairie, Lake St. Louis, O'Fallon, St. Charles, St. Peters, Weldon Spring, Wentzville and surrounding areas, their teams have the experience to promptly help property owners decide whether to repair or replace their roof. Their customers say the same in their online reviews on Google, Facebook, Angie's List and other review platforms.

For example, in his review on Facebook, Garry Paine, says, "Brian is an honest, trustworthy man, and his concern for the welfare of his customers is outstanding." On Angie's List, a recent review gives them an A-grade rating (the highest award), saying, "He came early, he's precise, and not all companies do that. He's really thorough, more than the other two guys. I'm going to hire him again."

Another Angie's List review also gives them an A-grade rating, saying, "I contacted Brian Dawson Roofing & Construction shortly after a recent storm. I worked with John, who was very knowledgeable and professional. The bid came in lower than expected. The work was performed on time. They cleaned up after

the work was completed. Looks fantastic! I would absolutely recommend them to anyone looking for a roofing company.?

Cameron concludes, ?We have the experience to deal with any roofing problems you have. Whether it is a small home or large commercial property, we will work with you every step of the way. We have staked our business on providing the best service and the highest quality workmanship. We would like to thank all those who have taken the time to leave their reviews online. We love reading them and look forward to more. Of course, if there is a problem, just give us a call. We want everyone to have a safe roof over their heads.?

Those who wish to have the firm come and inspect their roofs are invited to contact Brian Dawson Roofing to get started. More information about their services, including emergency roofing and exterior remodeling, can be found on their website. Those who are active on social media are invited to connect with them on Facebook, Instagram and Twitter.
