

San Francisco City Hall Wedding Photographer SFCHWP Announces New Packages

January 08, 2020

January 08, 2020 - PRESSADVANTAGE -

San Francisco City Hall Wedding Photographer (SFCHWP), one of California's most renowned team of wedding photographers, is proud to announce the addition of several new packages to their existing list of services, providing several complementary options that fit different budgets. SFCHWP specializes in complex, high-end weekend weddings and are known in the community for offering complete wedding coverage packages at an affordable price, beginning at \$325 for a full ceremony. More information regarding the renowned San Francisco wedding photographers is available here: <https://www.sanfranciscocityhallweddingphotographer.com>.

While the SFCHWP team has been in the industry for several years, they actively continue their efforts to deliver the comprehensive list of services possible, as demonstrated by the recent addition of new wedding photography packages. Megan Smith, a representative of the local team, states, "We are always looking for new ways to give back to the community, and extending the options within our services is merely one of the many ways in which we aim to do this. We want to offer a variety of options for whatever budget our clients may have, allowing them to choose the most package suits their individual needs the best. All of these services come with the guarantee of excellence that distinguishes us as one of San Francisco's best

wedding photographers. We do not make any compromises when it comes to the quality of our services."

One of the company's most accessible options on their new wedding plans is their B package, which is available at \$425 for full coverage of the ceremony. This package comes as one of the best budget options available, offering family and bridal portrait photos (which can be taken before or after the ceremony), along with 25 high-resolution photos taken during the ceremony. All of the photos taken will be provided to the client with no watermarks, in addition to being able to download at least 25 of their ceremony photos as well as 3 of the posed photos taken. A similar package offering all of these benefits as well as 10 posed photos is also available, allowing clients to choose whichever options fit their needs best.

Included in the company's San Francisco City Hall wedding photography programs for a higher budget are packages E and F, at \$1,425 and \$2,425 respectively. E offers a two-hour long coverage for the ceremony, family and bridal portraits on all available floors, and optional photos that can be taken in another location. The package includes all high-resolution photos taken throughout the two-hour coverage of the ceremony, as well as a DVD-quality online slideshow and full access to all of the images.

Their most complete package, the F plan, comes with all of the benefits offered in their previous plans as well as optional coverage for the bridal preparations, extending the overall coverage of the event up to four hours. In addition to this, the client will also be able to download an HD version of the slideshow created for the event.

Several examples of these images may look like as well as the coverage of the event can be found on the SFCHWP website (under their portfolio section), where they showcase some of their most recent wedding photography projects. Through this space, the company also shares testimonials from clients who have expressed their gratitude across a range of review platforms.

One of their most recent customer reviews, written by Alfred Serrano on the Google platform, states, "I would recommend SFCHWP as your photographer. This is because, even with 1-day notice, they provided us with excellent service, they didn't waste any time, and they guided us through the process. Megan will answer everything you need to know and will reply to you ASAP. Joey was our photographer. He helped us with everything, and he also help us choose the venue of our wedding.?"

The review continues, "Always ask your photographer because they know the place, and Joey did not disappoint us. We have so many amazing shots that I and my wife I decided to buy everything in the gallery. Thank you for your amazing service and professionalism, SFCHWP."

Those in need of a reliable and experienced wedding photographer may reach out to SFCHWP to get started. More information is available on their website, and interested parties may reach out to Megan Smith of San

Francisco City Hall Wedding Photographer to follow up on any further inquiries.
