

The Little CBD Store Launches Online

January 23, 2020

January 23, 2020 - PRESSADVANTAGE -

The Little CBD Store, based in Wigan, Greater Manchester, UK, has announced their opening as an online business that provides legal cannabidiol (CBD) and hemp oil products from the best and well-known brands. They offer various types of CBD products, such as oils, edibles, vape liquid, sprays, capsules & crystals, skincare & balms, and drinks. They offer fast shipping and return, a fair price guarantee, and 24/7 support through the phone, email, or social media. Furthermore, they would like to point out that all of their CBD products, contain either zero or minimal levels of tetrahydrocannabinol (THC) and are 100 percent legal to buy and consume in the UK.

Martin Baron, a spokesperson for the CBD online store, says, "We're happy to announce that we are now open for business for those who are looking for an online store to get quality CBD products at inexpensive and fair prices. One of the reasons why we decided to establish an online store and not a physical store is to cut on costs so that we could pass on those savings to our customers through relatively low prices that are considered to be fair for every-one."

The Little CBD Store offers various CBD oils. These include well known and loved brands like 1CBD, 24K CBD, Applied Nutrition, Cali Greens, CBD Asylum, CBD Eaze, CBDfx, Cupid CBD, Loveburgh and many more that have proven very popular. They also stock these in a range of flavours or natural tasting oil extracts. The company states that CBD oils are offered in a range of bottle sizes starting from 10ml going up to 200ml. This allows customers to try smaller bottles until they find the perfect oil and then take advantage of larger savings on the biggest bottle size.

The online store also offers CBD vape liquid products like vape oils, short fills, cannabidiol vape additives, and booster shots. These include popular and well established liquids from brands that include Billiards, Cali Greens, Cannavape, CBD Buddy, Dank CBD, CBD King, CBDfx, Dinner Lady, Ekow, Peng Vapour, Reserved CBD and Ultimate Puff. This gives customers to the online store a huge selection to choose from. The vape liquids are offered in a staggering range of flavours, covering everything from fruits to hemp sativa

tasting oils.

The CBD online store also offers various CBD edibles, such as CBD infused chocolate, gummies, fruit, lollipops, gum, nuts, and honey. Martin Baron states, "We knew we had to include a huge range of edibles as they are so popular and one of the preferred ways for customers to take CBD oil as not everyone likes the taste of the oils. To this end we sourced everything from CBD infused honeys and spreads, various types of gummy sweets, gum and hard candy type sweets all the way through to things like infused cooking oils that can be used to make steaks or salads."

The online store also offers CBD infused drinks, which provide a fast and convenient way to get CBD into a person's daily diet. These include infused sports drinks, energy drinks and soft drinks. The company also has an impressive range of CBD infused coffee beans in ground and unground forms, large packs of CBD tea bags in various flavours along with popular multi packs of various drinks like the 12 x Endo Sport CBD Isotonic Sports Drink (10 mg CBD, 500 ml) in Berry Tropical flavour;; 24 x Little Rick 32 mg CBD Sparkling 330 ml Pina Drink and O'Shaughnessy Hemp Infused Hibiscus, Raspberry & Rooibos 500 ml CBD Cordial.

Those who are interested in quality CBD products at relatively low prices can visit the online store's website, or contact them on the phone or through email. They may also want to check out The Little CBD Store's twitter page for industry news and special offers by following @littlecbdstore.
