

Virginia Beach Lawn Care Company Provides Tips for Weed Control in Virginia Beach for 2020

January 08, 2020

January 08, 2020 - PRESSADVANTAGE -

Just because it's cold outside, lawn owners should not assume they get a free pass when it comes to taking care of their grass. Lenard's Lawn Care Service of Virginia Beach offers a few tips and strategies property owners and lawn care professionals can easily utilize to maximize the health and beauty of any lawn around Virginia Beach. The company has been popular with residents and shows no signs of slowing their growth due to high demand and outstanding customer care.

According to Lenard's, leaf clean up and weed control are easy steps they can perform for customers to prepare their yard during the long cold season for a beautiful spring lawn. These steps will help prevent common problems in lawns around Virginia Beach that come up as issues each year and are all relatively easy and affordable to execute.

As winter ends and spring begins, Lenard's Lawn Care Services recommends Pre-Emergent to fight the battle against not only Crabgrass but Broadleaf weeds as well. A Pre-Emergent will stop seeds from sprouting and becoming weeds that can take over one's lawn. Not all lawn care companies provide weed control for both Crabgrass and Broadleaf weeds in a program, most will have to buy them individually. But at

Lenard's Lawn Care Service, they have 2 packages and both Pre-Emergents are available in their packages. Mike Lenard owner of Lenard's Lawn Care Service stated: "We recommend 2 applications of Pre-Emergent for both Crabgrass and Broadleaf weeds, one at the end of February and one in April."

By hiring this lawn care company, homeowners and businesses do not have to worry about the timing and/or product for any fertilization or weed control. This company has been providing effective fertilization and weed control services for homeowners and businesses throughout the years. They know when to put the correct amount of fertilization and weed control on their customer's lawns and will keep on top of these areas so customers can be assured of a healthy lawn in 2020.

Those interested in learning more about caring for their lawn during the late fall winter and early spring months should contact Lenard's Lawn Care Service. The company offers free quotes and employs a highly trained staff of professional lawn care enthusiasts who are serious about maintaining a high standard of excellence for clients around Virginia Beach and beyond.

With a dedicated focus on quality over quantity, Lenard's Lawn Care has become a trusted partner throughout the community, known for their passionate, professional approach, deep expertise, and unparalleled commitment to maximizing the beauty of any property they are responsible for.
