ChebeUSA, based in Pickerington, Ohio, has announced that they are offering a free ebook on how chebe powder is an answer to the Natural Hair Afro Textured Hair movement. Chebe powder from the Republic of Chad has also been found to be the answer to Black Girls Afro textured hair needs. This ebook on chebe powder can be obtained without any charge from the website <https://chebepowderusa.com/>.

One of the products offered by ChebeUSA is the Chebe Powder Sahel Cosmetics Traditional Chadian Chebe Powder for managing long kinky hair. Chebe powder has traditionally been used for hair care by the Basara Arabs, an African ethnic group in Chad. Chebe powder is used for hair treatment by the Basara Arab women who have very long naturally coarse hair. They covered their coarse hair with a homemade mixture containing Chebe powder and this keeps their hair moisturized and lubricated. It has been found that because of this homemade mixture, the hair of the Basara Arab women never breaks even from childhood.

Charity Sayers, a representative for ChebeUSA, says "We offer totally pure and natural authentic Chebe products. The Chebe powder that we use in our products is obtained from The Republic of Chad in Central Africa. While some people may believe that their hair length is due to genetics, this has been disproven by

the Basara Arab women. They said that they do not apply chebe powder mixture to their bangs which remain short. On the other hand, those parts of the hair on which they use the powder mixture doesn't break and grows very long and strong.?

Because of their combination of natural ingredients, the Chebe powder products offered by ChebeUSA can allow coarse and kinky hair to achieve their full growth potential. Those ingredients are designed to moisturize and nourish the hair with the result that hair loss and breakage are prevented. With this, women with coarse and kinky hair are able to grow their hair into long, strong and dark locks. Chebe Powder from ChebeUSA is made of all-natural ingredients such as Lavender Croton, Gum Arabic, Prunus Mahaleb, Clove, Reisin, perfume, and vegetable oil. These are herbs and spices that have been found to have powerful anti-inflammatory and anti-fungal characteristics, which means that any bacteria are eliminated while the hair is kept moisturized.
