

Palisades Mazda Announces Mazda SUV Lease Deals

January 17, 2020

January 17, 2020 - PRESSADVANTAGE -

Palisades Mazda, a car dealership based in Nyack, New York, has announced their Mazda SUV lease deals that are available until January 31, 2020. These include the new 2019 Mazda CX-3 lease deal, which is available at \$128 a month for 36 months, with \$3,950 due at signing. Other Mazda SUV lease deals available for the car dealership are those for the Mazda CX-5 and the Mazda CX-9. For the Mazda CX-3 lease, this is for a new 2019 Mazda CX-3 Sport AWD SUV with a \$12,526 purchase option. Also, a \$750 Mazda Lease Loyalty Incentive can be provided if qualified.

Frank Benedict, General Manager at Palisades Mazda, says, "If you're looking for unconditional confidence no matter where the road may lead, then look no further than the new 2019 Mazda CX-3. This stylish subcompact crossover SUV was offered the highest possible safety rating by the independent organization IIHS when equipped with the available Smart Brake Support and Adaptive Front-lighting System. The new Mazda CX-3 uses milliwave radars and cameras that keep the driver in tune with his or her surroundings, thanks to its sophisticated i-ACTIV AWD® system."

2019 Mazda CX-3 Sport AWD SUV is equipped with the i-ACTIV AWD® system to help stabilize and enhance its overall traction so that rain or shine, proper control is available to the CX-3 driver. It is also equipped with new technology known as the SKYACTIV-VEHICLE DYNAMICS with G-Vectoring Control that helps to provide a smoother and less tiring drive. This is because when cornering, on initial turn-in and throughout, the system adjusts power delivery and shifts vehicle weight. And with its dynamic Drive Selection, the driver can select Sports Mode and the CX-3's responsive acceleration is amplified. Faster throttle response can be of help when merging into fast moving traffic, when passing, and when changing lanes.

Also available from Palisades Mazda is the Mazda CX-5 lease deal. With this deal, the new 2019 Mazda CX-5 can be leased for \$167 per month for 36 months with \$4,357 due at signing. The 2019 Mazda CX-5 Signature is provided with Nappa leather upholstery. For its technology, it is provided with SKYACTIV-G 2.0L or 2.5L gasoline engines. These have higher compression ratios when compared to the conventional engines. This allows the engine to get more energy from every drop of fuel.

Furthermore, newly integrated with the Mazda Connect? infotainment system is Apple CarPlay?, which allows access to iPhone?s maps, contacts, playlists, and compatible apps using voice through Siri. Siri will also read any incoming messages and allow the driver to respond without taking the hands off the wheel. And for safety, the Mazda CX-5 is equipped with i-ACTIVSENSE®, which includes the standard Blind Spot Monitoring and Rear Cross Traffic Alert that makes use of sophisticated radar and other technologies that help to alert to hazards before they happen.

Another Mazda SUV lease deal that is available from Palisades Mazda is for the new 2019 Mazda CX-9. The lease deal allows a customer to lease it for \$269 per month for 36 months with \$4,739 due at signing. The 2019 Mazda CX-9 is also equipped with Apple CarPlay?, which provides access to the iPhone?s playlists, maps, compatible apps, and contacts through voice using Siri. And for Android users, the SUV is also equipped with Android Auto? that can be accessed through tap or voice command.

The 2019 Mazda CX-9 is also provided with predictive i-ACTIV AWD system that monitors various factors, such as outside temperature to braking patterns. This system will automatically adjust power delivery to help provide optimal traction to prevent the wheels from slipping. Optimal traction is assured for the SUV, whether rain or shine. Also included is the SKYACTIV-VEHICLE DYNAMICS with G-Vectoring Control, which is an innovative technology that helps to provide a smoother ride for both the driver and passenger. When cornering, the system will seamlessly make adjustments to the power delivery and shifts the vehicle weight throughout the turn, thus reducing the need for tiny steering corrections.
