

Accessible Systems Hires Marketing Manager in SLC Utah

August 25, 2015

August 25, 2015 - PRESSADVANTAGE -

Accessible Systems, Inc. has announced the hiring of new Marketing Manager, Amy Muller, in SLC, Utah. As Accessible Systems' Marketing Manager, Ms. Muller will be a driving force behind the overall awareness of Accessible Systems and its mission along the Wasatch Front.

Ms. Muller stated, "I am thrilled to be able to be part of Accessible Systems of Utah. It is an exciting time of growth in the home modification industry. Accessible Systems of Utah offers incredible products with outstanding customer service that truly does change the lives of our clients. We give independence and dignity to seniors and those who are disabled through our innovative solutions to home accessibility challenges."

In addition to her marketing background, Muller has personal experience with caregiving. She said, "As a mother of a daughter who was paralyzed in a freak accident four years ago, I know how important it was for me to find Accessible Systems of Utah and solve my home accessibility dilemmas. After lifting and moving my daughter in and out of bed for three years, I was in extreme back pain. The Sure Hands lift solved this solution, gave my daughter back her independence and gave me back the strength to continue to be her

caregiver. Also, we have a multilevel home, and I had been carrying Kendra up and down two flights of stairs for over 3 years to bring her to the main level of our home. The Bruno curved stair lift that Accessible Systems of Utah installed has been a blessing to our family. Now we can meet together for dinner and family functions. I am excited to be a part of Accessible Systems and to accelerate its growth in 2015. Accessible Systems of Utah will continue to shine as a leader in home modifications along the Wasatch Front.?

Accessible Systems provides accessibility equipment and installations to create customized environments for homes and businesses. The company offers the following product lines: stair lift, ceiling lift, wheelchair lift, handicap bathroom, residential elevator, specialized medical equipment, and remodeling services that include barrier free bathrooms, grab bars, door widening, ramps and other installations. Accessible Systems is licensed and insured and ICBO certified, as well as a SureHands© distributor, Medicaid HCBS, Worker's Compensation and Vocational Rehab provider.
