

Dentist In Anchorage Helps Maximize Dental Benefits

January 23, 2020

January 23, 2020 - PRESSADVANTAGE -

Healthy Smiles Dental, which serves Anchorage, Alaska and surrounding communities, is pleased to announce that they can help their patients understand and maximize the dental benefits they (or their employers) have purchased. For those who do not have any dental benefits, they have a membership plan so that everyone can enjoy good dental health. Those seeking an Anchorage dentist can also take advantage of the clinic's coupon to get a sonic toothbrush.

Dr. Terry J. Preece, who heads the clinic, says, "Our mission is to help everyone get and keep a healthy smile. We know that improving the quality of your smile can have a profound impact on the quality of your life. We know that many people have a fear of going to the dentist, and often put off an appointment because they are afraid of the cost. We are a Preferred Provider with several of the leading dental insurance companies due to our excellence and commitment to our patients. If you are receiving dental benefits, we urge you to get your money's worth. We also have a membership plan that will provide the professional oral care you need at an affordable price. Now is the right time to book in, so you can enjoy taking lovely pictures for the rest of the year."

The clinic is a Preferred Provider for Premera Blue Cross, MetLife, Cigna, Connection Dental, Delta, Guardian and GEHA. They are happy to answer any questions about coverage and help ensure that their

patients understand their dental benefits. Full details of their membership plan can be found on their website at: <https://www.anchoragehealthysmiles.com/>. Their membership plans cover children as well as adults. The clinic offers two plans for periodontal therapy, which includes both surgical and non-surgical techniques to restore health to the tissues which support the teeth, in addition to the gums and bones, and prevent tooth loss.

Healthy Smiles Dental offers a range of sedation techniques to help patients during treatments. They know that most people are nervous about going to the dentist and will ensure that each and every patient is as comfortable as possible. This is reflected in the reviews left online by their patients. For example, on Google, Ed Wang highlights the difference in his experience having chosen Healthy Smiles Clinic. In his 5-Star review, Wang says, "The office staff were very pleasant. I have had bad experiences in the past with dentists, so my anxiety level was fairly high. Dr. Preece was very thorough, and I will definitely be seeing him in the future."

The clinic was recently featured on Street Insider, a leading online news site, in an article that explored their excellent services. In it, Dr. Preece states, "We don't treat dentistry like a commodity. Instead, we want people to know how to prevent problems. Oral health impacts overall health, including helping prevent heart attacks and strokes. Do not fear if you have put off going to the dentist for years. The best thing is to start the new year well so that you can prevent problems going forward."

The article also states that the clinic offers a full range of oral care and dental services for patients of all ages at affordable rates. They want every patient to feel completely relaxed and comfortable while receiving care. They offer convenient early morning and evening hours for those who may find it difficult to make appointments during the day, and their handicapped-accessible offices have access to ample patient parking.

With over 35 years' experience providing comprehensive, full-care dentistry, Dr. Preece and the entire team at Healthy Smiles Dental have committed to helping every patient achieve excellent oral health. They also offer sedation dentistry, cosmetic dentistry and teeth whitening services. Dr. Preece states, "We know that better oral health is vital to maintaining long-term overall health. When teeth are not kept clean, bacteria can grow easily in the mouth area and make their way into the body. Most people know that they should brush their teeth twice a day, but many don't realize that flossing daily is a good practice."

In a recent blog post, the clinic shed light on the many benefits that bonding and veneers provide, which have given many people the confidence to smile more often. They have helped many patients with discolored, chipped and stained teeth restore their smiles to their original glory. Those who wish to find out whether bonding or veneers might be appropriate for them are encouraged to speak to the clinic at their earliest convenience.

Those who would like to schedule an appointment with Dr. Preece and the trusted team at Healthy Smiles Dental can schedule an appointment through their official website. New patient forms are also available here, along with January's coupon to receive a sonic toothbrush (when completing a new patient examination and cleaning). All patients are invited to connect with the dentist in Anchorage on Facebook to stay in touch with their latest news, announcements and informative articles.
