

**Statement from Denver Marketing Firm LLC regarding
recent press release for Higher Grade - Denver
Colorado Recreational Dispensary by CEO Eean Ovens.**

January 21, 2020

January 21, 2020 - PRESSADVANTAGE -

It has come to our attention that a recent press release of ours was incorrect. In the course of our normal functions as a provider of online digital advantage we often try new things. Our press release on January 16, 2020 was a mistake and included a quote misattributed to one of the owners of Higher Grade, Zach Klimko, due to internal communications problems which were the sole responsibility of Denver Marketing Firm LLC.

The press release claimed that Higher Grade was offering delivery medical marijuana. This was not in fact true. The Marijuana Enforcement Division from the State of Colorado has been working on rules for delivery of medical marijuana, but the local jurisdictions must complete their own rules before any delivery service can be contemplated. We do not have a date that such a service will be available since it is a matter of regulators and municipalities to make available. If the City of Denver completes rules which will allow the delivery of regulated medical marijuana, Higher Grade will consider its ability to provide such a service at that time, and we will be sure to notify prospective customers through all open channels.

Higher Grade continues to provide top quality marijuana products at their retail locations. Those locations are:
