

Heirloom Culinary Releases Their Best Multipurpose Kitchen Scissors

August 21, 2015

August 21, 2015 - PRESSADVANTAGE -

Heirloom Culinary, a company based in Rushford, New York, is now offering its top multipurpose kitchen scissors on Amazon.com. The product's release has been announced on the company's website.

The company has long been producing and distributing high-quality and durable kitchen equipment. Its best multipurpose kitchen scissors are one of Amazon's top-selling products under the category of kitchen accessories. The product was designed by Jack Liguori, a retired pilot who created the product after encountering a lot of frustration with low-quality kitchen scissors. The kitchen scissors are built according to his standards, thereby ensuring they have a strong and durable finish. "Heirloom Culinary is proud to market a pair of scissors that will put an end to every consumer's frustration over blunt, low-quality kitchen scissors," Liguori stated. "I wanted to create a product that will last for a long time, and with it, a superior quality that every customer deserves."

The product is made from thick, heavy duty stainless steel. It is designed to handle the toughest of cutting

jobs. The scissors are capable of cutting through meat, poultry, herbs, cardboard and molded plastic packaging, as well as sheet metal. It can be used to prune trees and bushes. It comes with a lockable spring opening to ensure easy handling for both left-handed and right-handed people. Because they are made from stainless steel, the scissors are guaranteed to never rust or to come apart when cutting.

Heirloom Culinary's multipurpose scissors are available on Amazon.com. Each purchase comes with a lifetime guarantee. As of this writing, the product holds a perfect rating of 5 out of 5 stars, and ranks 26th on Amazon's list of kitchen knives and cutlery accessories. Customer reviews for the product are positive, with the most helpful review coming from Amazon customer Jenny, who stated: "I am really impressed with Heirloom Culinary's kitchen scissors. I can tell the product is made from durable materials just by handling it alone. The scissors are really built to last and cut the bones."

The company plans on producing and distributing more kitchen accessories to further strengthen their brand in the online marketplace.
