A spokesperson for Family Title Loans says, ?It might surprise you to hear this, but California is one of the poorest states in the US despite also being one of the most prosperous and progressive. New data from the US Census Bureau shows that the state?s poverty rate is at a whopping 18.2%. That number is exceeded only by Washington, DC, which has a poverty rate of 18.4%. It?s a harsh truth, but about 1 in 6 residents in California are living in poverty.?

?In times as troubled as these, it?s no wonder that you might find yourself needing some financial aid to get you through the week, or maybe through the month,? says Family Title Loans? spokesperson. ?Family Title Loans exists to help you in such situations. Whether you?re a little behind on your rent, want some extra money for groceries or have to address a medical emergency, you can reach out to us and get financial aid very quickly.?

The consumer finance company allows applicants to get the money they need by using their car title as collateral, a method that can ensure that no one has to sell their assets or dip into any emergency reserves. All that is required to get some money from Family Title Loans is a vehicle title. The equity an individual has in their current car, pickup truck, SUV, or other type of vehicle is used to determine if they qualify for financial aid and how much money they will be able to borrow. According to the company, FTL can help interested parties get pre-approved for financial aid in 20 minutes or less.

As part of their efforts to help local residents, Family Title Loans has also published many blog posts that provide detailed explanations on various financial matters. A recent blog post looks into how one might get financial aid using car titles as collateral if the vehicles are older than ten years. In the post, Family Title Loans explains how getting financial aid using a car title works, saying, ?The financial aid will be based off

the equity in your vehicle and your vehicle will be used as collateral? so it is a secured financial aid. So, let?s say that you have a vehicle that has $10,000 of equity in it. You may be able to receive between 60-90% of the equity in your vehicle. This will depend on many variables?the lender being the main one. The lender will decide how much risk they are willing to take based on the condition of your vehicle, the mileage and other things.?
