

Lucky's Market Is Set to Close Most of Its Stores in Florida, Including the Ormond Beach Location

January 28, 2020

January 28, 2020 - PRESSADVANTAGE -

Sunsella, a firm based in Las Vegas, Nevada, that offers home and kitchen products online, has commented on the news that upscale grocery chain Lucky's Market is set to shut down most of its stores in Florida, including the Ormond Beach store, by early February 2020. The Boulder, Colorado-based grocery chain has been struggling financially like most physical stores and retailers and has decided to close 32 stores nationwide, with 20 of them located in Florida.

The store closures will leave the grocery chain with just seven stores, including one in Florida, which is the Lucky's Market in Melbourne. Recently, in December 2019, there have been reports that the grocery chain had lost its critical financial support from The Kroger Co. This did not really come as a surprise because Kroger had to write off \$238 million in the third quarter of 2019 in relation to its investment in Lucky's Market. The chain's location at Ormond Beach has 65 employees and was only recently opened in May 2019.

The Las Vegas online retailer observed that this have been saddening news but it also demonstrates that most people prefer to shop online, which is why when they decided to go into the retail business they chose to go online. And since people will always need to eat, they decided to provide kitchen products that are

useful when cooking.

For instance, Sunsellla offers a Leakproof Lunch Container. These are bento boxes that have been ensured to be leak proof, thus making sure that soup and other liquids will not accidentally leak out of the box. The soup or sauce in one compartment are also assured not to leak into the other compartments and possibly ruin the other food items. This bento box can also be used as a student's lunch box. Thus, parents can plan and prepare the school lunch of their child for the whole week and then keep these bento boxes in the refrigerator. In the morning, they can get one box, heat it up and their child can bring that box to school.

Another one of the convenient home and kitchen appliances from Sunsellla is a set of four silicone egg rings. These egg rings are made from high-grade and extra thick silicone. Each egg ring has been assured to be non-stick and reusable. Each egg ring has been provided with a stainless steel handle to allow easy retrieval from inside the pan when cooking. These egg rings can allow moms and dads to make perfectly round burger patties, fried eggs, omelets, pancakes, and more. These egg rings are heat resistant and oven safe so they can be placed on top of a griddle, a pan, a barbecue grill, or a skillet.

Another convenient home and kitchen product from Sunsellla is the silicone vegetable steamer. This is manufactured from high grade silicone and it can easily be made more compact for easy storage. It can also be adjusted in size to fit into a broad range of sizes of pots and pans. It cannot be damaged by heat as high as 446 degrees Fahrenheit or 230 degrees Centigrade. It also has strong and durable locking handles, which can be used for retrieving it safely from the pan or cooking pot. The handles can also be folded, allowing the lid of the pot or pan to be closed while the steamer is inside a pot or pan. It can be used to steam different kinds of food like meat, dumplings, fruits, eggs, chicken, desserts, seafood, vegetables, and more.

Another Sunsellla product that people can be interested in is the Silicone Water Bottle Carrier/Holder with Carabiner. This water bottle carrier can hold 12 oz to 25 oz SS cola shaped bottles. It is made from food grade silicone while the carabiner is made of aluminum. This allows people to bring a water bottle with them anywhere they go.

People who are interested in some of the Sunsellla home and kitchen products can check out their website or contact them through the telephone or via email.
