

Dentist In Lufkin, TX Completes New Round Of Office Remodeling

January 27, 2020

January 27, 2020 - PRESSADVANTAGE -

Lufkin, Texas based Lufkin Family Dental is reaching out to their community to announce that they have remodeled their office. The refurbishment was carried out as part of their mission to offer more comfort to their patients in an environment better suited to their needs. More information on the local office is available here: <https://www.lufkinfamilydental.com/>.

Lufkin Family Dental has demonstrated that they embrace change as long as it represents improvements for their patients' in-clinic experience. Very few aspects of the old office remain untouched, as new furniture, a more welcoming environment and better equipment are all part of the dental office brand new spaces.

Dr. Derek Williams, lead dentist at Lufkin Family Dental, states, "We are very pleased with the outcome of the recent remodel of our office. We feel that it is representative of the high standard we hold ourselves to in the way that we treat our patients and the quality of our work. This is a much cleaner, sleeker and more modern environment, and we are certain that our patients are going to like it as well. We sought to create an office that our patients can enjoy visiting, and we are very happy with the result."

He further states that an additional goal of their remodeling project was to minimize the fear of going to the dentist's office that troubles many people. They hope to replace this discomfort with ease and calm, making every appointment one that their patients can look forward to rather than dread. Dr. Williams adds, "A big favorite among the patients that we have welcomed so far are the TVs on the wall and the ceiling. It puts many patients at ease, knowing they can watch their favorite show while having their treatment done. Kids love it too, as they can take their focus off of the noisy machines and uncomfortable procedures and put it into whatever show they want to watch."

Some of the other amenities that Lufkin Family Dental added to their office have a more practical use rather than simply serving as a distraction for their patients. Each room is now equipped with a computer, allowing the local dentists to take digital X-Rays with immediate results as well as help patients schedule new appointments on the spot. They state that this should reduce the number of visits that a patient has to go through before completing their treatment, whereas they previously would have to make separate visits to first take the X-Rays and then review the results.

Lufkin Family Dental offers a variety of dental care treatments at an accessible price to the community, as they maintain that their goal is to help and serve those in need. Their treatments include Cosmetic Dentistry, General Dentistry, Pediatric Dentistry and Restoration Dentistry, complemented by emergency care that covers any unique situation that a patient may encounter themselves in.

The local dental care clinic has received several testimonials that attest to the excellence of their services, and they boast a perfect review rating of 5 Stars (gained over 200 reviews) on the Google platform. One of their most recent reviews, written by John S., says, "My wife and I are an 'older' couple and have been to numerous dentists during our long-term marriage. At Lufkin Family Dental, Dr. Derek Williams and his entire staff should receive 5-Stars for making you feel welcome from the minute you walk through the door. Each person on the staff takes the time to greet you and address any concerns you may have. Dr. Williams is very professional, caring, gentle and will provide and discuss any and all treatment options available to the patient. We are very thankful to be well cared for by everyone there."

The office's website includes further information on the various dental care treatments that Lufkin Family Dental offers. Those interested in seeing the results of the recent remodeling session can plan their visit to Dr. William's office by scheduling an appointment through their website. They may also connect with the clinic through their official Facebook page, which can be found here: <https://www.facebook.com/lufkinfamilydental/>.
