Leading Tax Preparation Service Opens New Office In Coral Gables, FL

February 01, 2020

February 01, 2020 -
Florida based Tax House Gables is pleased to announce that they have opened a new office in Coral Gables. Having redefined tax standards in South Florida, the founders have created the perfect balance of innovation, experience and care for their clients. Their original Miami office was opened by President of Tax House Gables Gus Rodriguez, Jr. and Vice President Jessica Dominguez. The new location in Coral Gables was opened by his brothers, Gabriel and Adrian, both of whom are Managing Partners.

Speaking on behalf of the firm, Gabriel Rodriguez says, ?All too often, the human to human experience is lost in never ending bureaucracy. We are reclaiming that personal care for our clients with our family?s passion and purpose to help everyone through the process of filing taxes. If you are at a loss to know how to squeeze every cent out of your tax returns, let us provide our expert help and help you retain more. Whatever your income tax needs, whether it is individual, joint, trust fund or partnership, self-employed, LLCs and S-Corporations, we know we can help you obtain the best results.?

The Coral Gables tax preparer, is known for their quick services and trusted tax preparation services. Gabriel and Adrian Rodriguez have over 50 years combined experience in tax preparation, bookkeeping, payroll and tax defense services. They will ensure that any asset purchases and disposals, usually considered capital asset transactions, conform to the ever changing rules so that their clients can rest assured the process is carried out correctly.

Many of the firm?s clients have left reviews of their services on online review platforms. One such review from Adriel Corzo, who gave the firm a 5-Star rating, says ?I have been doing taxes with them for three years, the attention and professionalism [they offer is] highly recommended. I hope to visit you soon in your new office in Coral Gables to pay my taxes on time in 2020.?

Adrian Rodriguez states, ?Paying taxes on time is an essential task for everyone in America. However, many overlook some of the deductions which they could claim. For instance, many don?t even know that the fact that they are providing financial support to immediate family means they could claim them as a dependent.

Understanding how to ensure that this can be deducted is something you should discuss with an expert like us. We urge you to bring your concerns to us, whether it is in regards to providing care for your parents or for other family members who are unable to work, even for temporary periods.?

Those looking for a local income tax preparer that they can trust also know that they need to start getting their paperwork in order. This is something which should not be put off to the last minute, according to the firm. Many of their clients have been using their affordable services for several years, including Mark Cerelli, who recommends them Facebook, saying, ?I personally have been using Tax House Gables for over 10 years, outstanding accountants and people!?

Even when their clients move, many still retain their services, including Johalen O'Bryan who also recommends the firm on Facebook. In his recommendation, he says, ?Gabriel has been my guy for 12 years. He is amazing. Always helpful with any questions or concerns you have. I moved from Miami three years ago, and he still does my taxes. I wouldn?t change him.?

Rodriguez responds, ?We want to thank all our clients who have left their feedback online. We are grateful for their trust and support. We have grown through word of mouth, focusing on our core values to service our clients, person to person. At this time of year, tax returns are on everyone?s mind, even after they have been filed. However, it is also the best time to consider how you may minimize your tax exposure going forward. When you are ready, we can help you with that too.?

The firm provides a full range of business and financial services, tailored individually to meet every client?s needs. From bookkeeping, business consulting through to retirement planning or IRS representation, they can provide expertise which will help ensure the best outcome. Tax House Gables suggests anyone who has not already filed their return to consult a professional in order to get the best tax prep assistance available to them.

With the date for filing tax returns approaching fast, the firm is ready to provide assistance to anyone who needs it. Tax House Gables can be contacted by phone, email or through the contact form on their website. Further inquiries may be directed to Gabriel Rodriguez as well.
