

Paintless Dent Removal & Auto Hail Damage Repair Specialists Celebrate 20 Years In Business

June 15, 2020

June 15, 2020 - PRESSADVANTAGE -

Blaine, Minnesota based Excel Dent Removal is celebrating their 20th year in business by sharing their upcoming goals along with words of appreciation for the support that they have received from the community. Learn more about the company here: <https://www.exceldentremoval.com/>.

Excel Dent Removal is a unique dent repair company in Minnesota. The shop was born with a clear goal in mind: to help the community by offering a reliable service of the highest quality at an affordable price. Now, two decades after their inauguration and after serving thousands of customers, the company is celebrating their 20th anniversary by sharing a vision of the milestones they hope to reach in the upcoming years. They also have plans to improve the quality of their services.

"Everyone at Excel Dent Removal is very happy to have made it this far. However, we are even more excited about what is to come," states Steven Dumala, the owner of the local dent repair company. "We started this venture 20 years ago with the intention of being a quick, reliable and affordable alternative to traditional car body repair shops. While we have found great success in doing this, there is still much more we want to do for the community, and we want to reassure them that we will continue looking after them and making every effort to improve our services."

Over the years, Excel Dent Removal has stood out above their competition thanks in part to their reliable, excellent services as well as the outstanding commitment they show towards their clients. This has led them to become the preferred option for Blaine residents, each of whom continue to place their trust in the company's dent repair specialists whenever their car's bodywork is damaged.

"If you are like me and you are particular about your car and want the highest quality service, then I encourage you to come to see why paintless dent repair at Excel Dent Removal is the best option to fix those dents in your vehicle," states Dumala, adding that the company treats each client's vehicle with the utmost

care. He adds, "I am a car enthusiast myself, and know just how stressful it can be to leave your vehicle in the care of a stranger. However, given our extensive experience in the industry, you can rely on us to handle your vehicle with professional care and return it to you looking as good as new."

According to Dumala, Excel Dent Removal can fix a variety of bodywork issues, including dents, hail damage, and crease dents. The company guarantees a high quality repair for each project they take on. Even though their services are affordable and can be completed within a shorter timeframe than what would be possible with a body repair shop, the company asserts that they do not make any compromises in the quality of their work. Further information on the company's services can be found here: <https://www.exceldentremoval.com/services/>.

Excel Dent Removal is the highest rated 5-Star business for paintless dent removal in the Blaine Minnesota area, boasting a perfect review rating gained over 60 customer reviews. One of their most recent Google reviews, written by Terri Hall, says, "Excel Dent Removal was fabulous. My 2020 KIA had damage from two hail storms in 10 days, and they fixed all the hail and handled all the insurance claims paperwork with adjusters. My KIA is perfect now, and the service was second to none. Thanks, Steve, Brittany and all the staff for doing such a great job."

Similarly, Julie Herman says, "I would definitely use Excel again: 1) next-day service 2) courteous, honest, speedy and excellent service 3) reasonable pricing 4) beautiful repair work I even got a call that the service ahead of me was delayed. I really appreciated the respect for my time. Well done, Excel!"
