Leeds Pest Control Services Offered by Apex Pest Control

February 04, 2020

February 04, 2020 -

Apex Pest Control, a pest exterminator firm based in Leeds, Yorkshire, UK, has announced pest control services for Leeds and surrounding areas. The firm has a team of pest control professionals in the area who are capable of getting rid of unwanted pests quickly, efficiently, and discreetly. Aside from Leeds, the areas that they cover include Rotherham, Sheffield, Barnsley, Doncaster, and North Derbyshire. The firm has 30 years of experience, is fully insured, and is a member of the National Pest Technician Association.

Tony Johnson, President of Apex Pest Control, says, ?We offer domestic, commercial, and agricultural and forestry pest control services. We deal with pest for domestic homeowners and commercial business. As a professional pest control service, we deal with local health and environment pests. With the increase of mice, wasp and rats, we take care to remove these nuisance pests quickly to reduce damage to premises or your property. To speak plainly, We offer pest management for every type of pests.?

Apex Pest Control can deal with various kinds of pests. These include rats, wasps, mice, ants, woodworms, fleas, cockroaches, bedbugs, carpet beetles, flies, squirrels, moles, pigeons, beetles, rabbits, and all other pests. Meanwhile, customers who have already experienced the services provided by Apex Pest Control

have provided highly positive customer reviews. At present, they have an overall rating of 5.0 on Google.

In a recent review, Helen J. gave the firm a five star rating and said, ?I have been delighted and very impressed by the excellent service and friendly, understanding team (Tony and Tom) at Apex Pest Control in Leeds. They attended my elderly mum's house the same day I called them to deal with mice and solved the problem that same day. As my mum lives alone, has several health issues and has a total terror of mice I am very grateful to Tom and Tony for their immediate and caring assistance. I would call them again without a doubt and would fully recommend them to anyone else. Thanks again guys. You've been amazing.?

Tony Johnson also says, ?If you are looking for the best pest control reviews near me, your location will make a difference on what pest control solution you will find. For example, if you want a pest control company in Leeds, West Yorkshire, UK, Then the best pest control reviews near me will be Apex Pest Control.?

One of the situations where Apex Pest Control can help is bed bug infestation. The problem with bed bugs is that they can live for weeks and sometimes even months, producing around 400 to 500 eggs during their lifetime. And aside from their blood feeding habit, they can leave annoying blood spots on the bedding. The bed bug treatment offered by the firm consists of applying an appropriate and long-lasting residual insecticide to all surfaces and those areas where they are likely to be found. They follow this up with an Ultra Low Volume (ULV) space spray for a fast knockdown effect.

Apex Pest Control can also help with problems involving cockroaches. This is essential because cockroaches have been known to be carriers of the microbes that can cause dysentery, salmonella, and gastroenteritis. Furthermore, they are very tough insects and have the ability to breed fast, making it necessary to call for professional treatment. The pricing will depend on the number of bedrooms in the home and the treatment is designed to eliminate cockroaches and advise the homeowner on how to prevent them from returning.

Meanwhile, rats are common pests found in most homes and the service provided by Apex Pest Control is tailored for each property because no two jobs are the same. The rat removal team from the firm makes use of effective control methods to eradicate brown rat or black rat pests for homes and businesses. They follow a number of simple steps: survey, treatment, follow up, and prevention.

Those who are interested in Leeds pest control services can check out the Apex Pest Control website, or contact them on the phone or through email.
