January 30, 2020 - PRESSADVANTAGE -

Fort Walton Beach, Fla. ? As a leading source of Fort Walton Beach sunrooms and other outdoor living structures for homeowners spanning the entire Florida Panhandle region, an important facet of the locally owned and operated business is evaluating the achievements of the previous year. Over the course of the previous year, Titan Sunrooms lived up to their reputation in the industry as professional innovators.

A highlight of 2019 was the implementation of the Block House Shed series. The new product has offered many uses, ranging from backyard workspaces, man caves, she sheds, and even art workshops. These sheds can be built at a small percentage of what a home addition would cost, while still being completely customizable. There is also a specific model of Blockhouse available that is fully insulated and air-conditioned with window panes to provide natural light.

To consistently provide their customers with the most up-to-date options for home renovation and Crestview screen rooms, the Blockhouse Shed series is a demonstration of the company?s drive for originality. Titan Sunrooms has been in the contracting industry for over 20 years and have had their hand on the pulse of any new options when it comes to building and innovating.

As an illustration of their success, Titan Sunrooms was able to sell 700 sunrooms to satisfied buyers in 2019. In addition to their success in retail, to match the growing demand of their product, the business added an impressive 5,000 square feet of capacity to the existing facility. During 2019, Titan Sunrooms manufactured, installed and supplied a growing dealer base, including Orlando and Jacksonville, with the most advanced custom sunrooms on the market.
