Mobility City Sells Scooters In Grayslake, IL

February 04, 2020

February 04, 2020 -
Grayslake, IL based Mobility City of Lake County is pleased to inform residents in local communities that they have a wide selection of mobility scooters in stock. The company asserts that the scale and variety of mobility scooters in their inventory will ensure that virtually every customer?s individual mobility requirements will be met.

According to the company, they are, ?authorized dealers of Pride, Golden, Enhanced Mobility, Drive, Compass and Invacare Mobility Scooters. This offers shoppers a wide variety of options for how and where their mobility scooters will be used. Mobility City can order any scooter a customer wants and have it within 2-3 days. Researching the kinds of scooters these providers have will give you a lot of relevant information as there are scooters made for plane travel, ones that are made to come apart and go into cars, ones that fold up and so on, fulfilling an incredibly diverse range of needs. Furthermore, there is a wide variety of turn ratios and how far a scooter can go on a single charge.?

They continue, ?As always, visiting our showroom is a good start to help decide which scooter is right for you or your loved one. Our sales assistants will be more than happy to go over what you need and help you find the mobility scooter that addresses your specific circumstances as closely as possible. Our goal is to ensure that our customers are able to live life to the fullest?both our products and our services are designed to fulfill this mission. Talk to us and find out what options you have today.?

Notably, while Mobility City is perfectly capable of catering to all those who wish to buy mobility scooters in Lake County, they are also aware of the fact that not everyone will need to have a mobility scooter on hand all the time. For instance, should extra mobility be necessary for a family outing or other event, Mobility City is pleased to offer several rental options that can help their customers enjoy their time among loved ones without restrictions. The company offers 1-day, weekend and weekly rentals of wheelchairs and mobility power scooters and chairs. In certain cases, customers may require longer rental periods, such as a month or more of continuous use. The company is ready and willing to comply with such schedules as well. This has the added advantage of allowing users on a budget to rent a suitable device only when and where they need it.

Mobility City complements their expansive inventory with services that are designed to keep each of their customer?s devices in top working condition, including mobile repair, cleaning and maintenance on an as-needed basis. Given that their customer base largely comprises of seniors, injured and disabled persons (both young and elderly), this gives mobility device users peace of mind in knowing that they will never be stranded for long in the event of a breakdown or equipment malfunction. Mobility City is able to respond quickly to calls, and they even have the ability to fix equipment onsite in many situations.

The availability and accessibility of such services may explain why the company boasts excellent mobility scooter and power chair sales in Lake County. However, they also tend to receive glowing reviews from customers who share their experiences on online review platforms. On Google, for instance, Renee Falk-Lemke says, ?Kevin, the owner of Mobility City, was fantastic! He set me up with a scooter after knee surgery so I could attend a trade show. He was very informative on how the equipment worked. He also explained how to disassemble the scooter so it could easily fit in a van or vehicle. The service was superb, couldn?t ask for anything more!?
