

AsIAM Life Launches DIY Coaster Making Kit

February 05, 2020

February 05, 2020 - PRESSADVANTAGE -

Sunnyvale, CA based AsIAM Life is pleased to announce that their DIY Coaster Making Kit is now available for purchase from multiple retailers, including through their online storefront on Amazon. The handy DIY, or Do It Yourself, kits will allow customers to invest their own designs into their creations, giving a personal touch and a sense of uniqueness to each coaster they make.

According to the company, new DIY kit owners will be able to, "Make unique coasters for your home or as gifts for others. This kit can be used as a fun activity for a craft party, birthday, shower and any get together. The kit includes all the essential materials to make up to four coasters. The Diatomite material is natural and free of chemical additives. This stone-like coaster will absorb liquid quickly and protect your tables and countertops. Each coaster is 4" x 4" and fits hot or cold drinks perfectly."

Each Coaster Making Kit comes with all the items an individual would need to make their own coasters (aside from a few household items). The kits include 1 LOVE Coaster Mold, 1 HOPE Coaster Mold, 2 Blank Coaster Molds, 4 Diatomite Refills, 1 Measuring Cup, 1 Stirring Stick, 4 Cork Adhesive Anti-Slip Backings, 4 Pieces of Sandpaper and a set of Easy to Follow Instructions.

Parents and other responsible adults should note that the measuring cup and similar accessories should not

be used for any other purposes (especially cooking). AsIAm Life understands that safety is of paramount concern where children are involved, so parents and kids can rely wholly on the included items to make their little creations. No kitchen utensils will be necessary, save for a few disposable or washable items. On this note, the company states that coaster creators will need a paper or plastic cup, water, and a cloth or towel to finish their coasters. They also recommend that the Coaster Creation Kit be used for children aged 9 and up.

Up to four coasters can be made with each kit, which means that every product offers parents and children the opportunity to make four highly personalized coasters that are representative of their owner. They suggest that a single order can make for a brilliant group activity for a family of four or less, provided that some coasters will be shared or stored for later use. Additionally, the Coaster Creation Kit's extremely affordable price makes it both a practical gift and a fun activity that can be repeated as many times as necessary.

While two of the included coaster molds have the words LOVE and HOPE inscribed on them, which are two common family-friendly themes that every parent will adore having a memento of, the remaining two molds are entirely blank. These molds are specially included in order to make the most of a child's creative drive, so parents have a beautiful opportunity to encourage their children to go wild coming up with designs that speak the most to them. Given that children will likely require help putting their coasters together, parents can get in on the action as well.

To that end, the Coaster Creation Kit comes with a set of instructions that are carefully designed and illustrated in order to ensure any reader will be able to make their own coasters with minimal hassle. Parents may have to help the kids get started, but the simple nature of the Creation Kit will ensure that everyone is familiar with the process in no time at all. This newfound expertise can also be put to good use in the future when the children decide that they would like to make more coasters or try some new designs.

To put parents' minds at ease, AsIAm Life offers a 100% satisfaction guarantee. They state, "We believe in integrity, high-quality and simplicity, and we design our products with these values in mind. If you have any issues with your coaster making kit, just get in touch and we'll make it right—no hassles, no worries."

Interested parties may view the Coaster Creation Kit's Amazon product page at the following link: <https://www.amazon.com/dp/B07VRHCGBB>. More information can be found on the company's website as well.
