

Company Doing Commercial Roofing In Windsor, ON is Proud to Share Another Glowing Review

February 12, 2020

February 12, 2020 - PRESSADVANTAGE -

Those at Cox Roofing are pleased to share another very positive review of their services. In that review, the company received 5 out of a possible 5-stars. This adds to the long list of positive reviews this Windsor, Ontario based company has received from customers they have provided industrial and commercial roofing services for.

The above-mentioned 5-star review was written by a customer named Frank Castle. In his simple but very straightforward review Castle says, "Fast, Reliable, Friendly and Quality roofing solutions." 5-star reviews are nothing new for this highly rated roofing services provider. On their Google Maps business listing alone, there are 8 total reviews and all 8 have given this company the highest rating of 5-stars. That is something that's not very easy to do in any type of service industry.

Here is another glowing review taken from the company's Google Maps business listing. In this review satisfied customer Michelle McDowell wrote, "My commercial building needed a new roof bad! It was leaking in a bunch of spots. I spoke with Wayne Cox directly and he is super friendly and personable. He sent someone out right away to get me a quote. When they started the roof, the onsite supervisor, Devon, plus all

the other workers, were so friendly and respectful. We did run into some problems during the roof replacement process but the way they handled the issues and fixed them right away is superior customer service. They are honest and dependable and I would recommend them to anyone! Every Cox Roofing Systems Customer Review on their Google Maps business listing had nothing but good things to say about the company.

Company owner, Wayne Cox, had this to say about what all of these positive reviews meant to the company, "We are thrilled to death with the amount of very positive reviews we have received on our roofing services over the years. It shows that the effort and commitment my employees and I put into their jobs is working. We have always strived to do more than just skilled roofing work. That includes pricing our roofing services fairly and treating our customers the right way while working for them. At our company, we also realize the value that these positive reviews have as far as bringing future business into the company. New customers can rest assured that they will get the same effort from us as those who have written these reviews have received."

Cox went on to add that the thorough way that they approach each roofing job started with the company's founder, Stan Cox, back in 1976. He said that the elder Cox's approach to doing business laid the groundwork that has propelled this family-owned business into one of the most popular roofing companies in Windsor and the surrounding area.

As these reviews indicate, Cox Roofing has firmly established itself as one of the premier industrial and commercial roofing contractors in the Windsor area. Cox says they are specialists when it comes to applying three different types of flat roof coatings. This includes energy-efficient EPDM Flat Roofing Membranes, TTR® Tri Thermal Roofing Systems, and Firestone UltraPly Platinum TPO roof coatings. Cox feels that one of the other reasons that the company has become so popular is because they stand behind their roofing services with 10, 20 and 30+ year warranties.

The owner also pointed out that while the bulk of their business is industrial and commercial roofing solutions, they also will help out residential roofing customers too. Their residential projects mostly include major roof restorations and putting down residential flat roof coatings which are closely related to the types of commercial projects that they work on all of the time. Cox says they are also specialists when it comes to any type of metal roof restoration project.

The owner also says that those who want more information on their commercial roofing in Windsor services can visit the company's website. There they will find detailed information on the different roofing solutions they offer and other useful roofing information.
