

## Roof Installation Calgary Firm Receives Highly Positive Customer Review

*April 01, 2020*

April 01, 2020 - PRESSADVANTAGE -

No Payne Roofing Inc, based in Calgary, Alberta, Canada, has announced with pride that they have recently received a five star customer review on their Google Maps page. The customer was very satisfied with the roof repair service that the company provided and took the time to leave a highly positive review. The company is a fully insured and licensed provider of general roofing services in Calgary and surrounding areas.

Geoff M., the customer who gave a five star rating to the company, said, "Had a small repair job that Payne Roofing accepted when others wouldn't. Fixed it the next day and gave me an assessment of hail damage along with some good advice on claims. Very happy with service." In response to Geoff M.'s comment, Mike Payne, CEO and founder of No Payne Roofing Inc, said, "Big or small, we take em all! Thanks for your business and kind words."

The recent five star review demonstrates the roofing company's commitment to always provide the best service to their customers, whatever the size of the project. The company offers a broad range of services. These include roofing services, siding repair, chimney repair, gutter cleaning services, and skylights

installation. For their roofing services, the company provides roofing inspections, new roof installation, roof repairs, roof maintenance, and roof replacement. The company offers a wide range of residential and commercial roofing services, such as repair of sidings and eaves trough. All services are provided with a full 10-year warranty.

In a previous No Payne Roofing customer review, which can also be found on their Google Maps page, a customer also gave them a five star rating. The roofing company had provided a re-roofing service with Certainteed Northgate shingles and the customer was very satisfied with how the new roof had substantially improved the aesthetic value of the house.

One thing that makes them stand out, given that their work often requires them to spend long periods of time on their customer's home, is that they always aim to maintain a cordial relationship with customers. This approach, according to Mike Payne, has helped them establish a sense of camaraderie and trust between their contractors and customers, thus, allowing each project to be accomplished as fluidly as possible.

Aside from roofing services, the company also offers gutter cleaning services. While gutters may seem to be just a minor part of the roof, they can cause some problems if they get clogged, and this is actually a common occurrence. Thus, they advise homeowners and other property owners to regularly inspect their roof for signs of a clogged gutter. This will allow the issue to be remedied before it escalates into something more serious. Signs to look for include: misaligned downspouts; rusting gutter undersides; and the presence of ponded water in the gutters. It is important to have a well-maintained gutter system because this can make it last longer. People are also advised to keep the sidings clean, and protect the garden and yard, including the foundation structure of the home.

No Payne Roofing Inc also provides siding repair. There are various things that homeowners have to be aware of that may indicate that there is siding damage. These include peeling paint inside the home; a loose or missing panel; rotting and warping; black stains that could be mold; rusted metal sidings; and increasing energy bills. The company can repair different kinds of sidings, including fibre cement siding, wood siding, vinyl siding, metal siding, and composite siding.

The company also provides chimney repair and skylights installation. Chimney repair is vital, especially during the start of the winter season. They can provide solutions to a number of chimney problems such as leakage, cracked chimney liners, crumbling bricks, cracked or broken flashing, damaged chimney crown, and more.

Homeowners and other property owners interested in roof installation Calgary residents can trust may want to

visit the No Payne Roofing Inc website, or contact them through the telephone or via email. They are open from Monday to Friday, from 7:00 am to 9:00 pm, and on Sundays, from 9:30 am to 5:00 pm.
