

Best Windshield Replacement Near Me Offered By Dallas Company

February 07, 2020

February 07, 2020 -
Dallas, Texas based Jacobs Low Price Auto Glass is reaching out to the community to reassure them of the availability of their services. They invite local drivers to their store where they can promptly get a windshield replacement for a fair price.

"We wanted to inform the community that we are at their disposal whenever they need us, both for walk-ins and scheduled appointments," says Thomas, a representative of Jacobs Low Price Auto Glass. He adds, "Driving around with a dented windshield is unsafe, though we are always willing to work around our client's schedule to carry out their windshield replacements. We invite you to visit our shop even if you only have a couple of free hours early in the morning, or just before our closing time. We will figure something out to safely put you back on the road."

Jacobs Low Price Auto Glass takes great pride in offering excellent services to the community that are also accessible and convenient. They state that they understand the challenges and concerns that their customers

face when dealing with a broken windshield. As such, the company focuses on efficiency and quality, aiming to finish the job promptly to get their customer safely back on the road in no time. They rely on a team of highly-experienced professionals as well as a large inventory of windshields to make this possible. This combination allows them to produce a prompt solution in most situations.

"We have one of the largest shop inventories of glass in Dallas, which means that, in most cases, we can get rid of any intermediaries and begin working on replacing your windshield immediately," states Thomas. He adds that, even for the rare cases where they do not have the exact windshield model, they can usually find a matching piece within a matter of days.

Once a replacement has been located, the Jacobs Low Price Auto Glass team gets to work on the installation of the piece, which usually takes a few hours. This process includes the installation of any factory electronics, such as heated windshields or built-in antennas that may be attached to the windshield. The company guarantees that the replacement will have the same functionality that it originally came with. The visual appeal of the new glass will also be the same as the factory model?the shop asserts that they make sure that the tint and shade are the same as the factory installation.

For several years, Jacobs Low Price Auto Glass has remained the preferred option for Dallas residents who have required a windshield replacement service. Their 20 years of history serving the community are filled with stories of success, as they have received over 250 positive customer reviews through the Google platform (where they maintain a near-perfect review rating of 4.8 Stars). Learn more at the following link: Windshield Replacement Near Me.

One of their most recent testimonials, written by Korina Kay, says, "If anyone is looking for a window repair/replacement, I highly recommend Jacobs Low Price Auto Glass! We called three other places, and Jacobs beat all of their prices. Plus, they had the best reviews. I had my windshield replaced today due to being cracked from the trucks I drive behind to and from work. The service was outstanding! We will refer all our family, friends and co-workers here!"

Another reviews praises the company for its honesty and commitment, as Christian Edwards says, "This place saved my mom $200 on a single piece of glass over Safelite. The man also waited to close for her so she didn't have to go a night without glass in her car. They were nice, professional and very fairly priced. I sent my Mom there and was very happy, so I would recommend them to anyone. Best glass store in Dallas."

The company's website includes more information on the services that Jacobs Low Price Auto Glass offers. They invite interested parties to reach out to Thomas for a free quote on the windshield replacement cost as

well as the estimated duration of the job. He will also follow up on inquiries about any other topic regarding the company's services.
