All this and affordable too. You'll save money while saving your skin thanks to Aya Natural's revolutionary approach to skincare. We believe that if an ingredient cannot be eaten, it should never be used to treat the skin. Our products are developed using a finely-tuned recipe, incorporating natural and unrefined cold-pressed oils, plus herbal extracts and premium essential oils. Formulas are mixed slowly in order to preserve the essential nutrients. Nourish the skin with natural goodness, improving its health and vitality."

The All Natural Night Cream Face Moisturizer is suitable for both adults and teenagers. It is an overnight face cream that can stimulate intense collagen production that may tighten, lift, firm, and regenerate skin, possibly allowing a person to start the day with a young looking skin with lots of hydration. This night cream is also a cruelty free men's and women's facial moisturizer. It has been assured to have no alcohol, parabens, and sulfates and it is suitable for dry, sensitive, or combination skin. The skin care line products also contain extra virgin olive oil, which contains nutrients and vitamins A and E, which are antioxidants. This pure, fine oil that is produced through initial cold pressing of the olives. This may help in repairing and renewing the skin, resulting in skin that is smooth, soft and clear.
