SC Floor Safety Company Shares Secret To Avoid Slips and Falls This Winter

February 12, 2020

February 12, 2020 -
Tripp Brothers Non-Slip Treatments shares some tips to avoid slip and fall accidents this winter season.

According to Bluffton, SC Floor Safety Professionals, slips and falls remain the top cause of personal injury accidents in the United States, much more during the winter season. Approximately 25,000 people are brought to the hospital due to slip and fall injuries daily. Of which, some 55 people die. That is why it is the second top cause of accidental deaths.

Slip and fall cases also cause huge expenses for companies in the US. Slip and fall injuries in the workplace cost businesses some $30 billion yearly. Accidents in the workplace often lead to lawsuits; thus, a huge amount of money is spent.

However, clumsiness is not the culprit, but the unsafe surface, says Tripp Brothers Non-Slip Treatments. The Bluffton, SC Floor Safety Service said that slips and falls could be avoided with non-slip flooring at home or businesses. Tripp Brothers Non-Slip Treatments stressed that the rising demand for anti-slip coating is proof of its reliability to prevent accidents.

The anti-slip coating market is likewise expected to grow by $105 million by the end of 2020 and expected to reach $161 in 2025, according to market reports. It shows how businesses give importance to the safety of their workers, and at the same time, of homeowners to their families, according to the Bluffton-based floor safety specialist.

Meanwhile, Tripp Brothers Non-Slip Treatments, offering slip-resistant residential in Bluffton, SC, uses highly-effective chemicals that do no harm and has no effect on the appearance of any surface it is applied to. This quality chemical is a Sure Step product. Sure Step is proven effective for concrete, quarry tile, Spanish tile, ceramic tile, glazed brick, marble, terrazzo, porcelain/enamel, and many other hard mineral surfaces.

Products of Bluffton, SC Floor Remodeler Services have no downtime when applied so clients can use the floor or tub immediately following treatment. Their products also create an invisible, sophisticated tread design into the surface of hard mineral floors and porcelain/enamel bathtubs. It is also safe to use without affecting the appearance of the floor or bath.

Brothers, Paul and Tom Tripp, own the floor treatment company. "Providing this service to businesses and people is an absolute pleasure. I know I am helping them tremendously," says floor safety specialist Paul.

The company delivers various non-slip flooring for all types of floors. They have porcelain non-slip floor tiles, non-slip floor tiles for showers, non-slip kitchen flooring, and non-slip laminate flooring, among others.
