

Marriott & Sons Roofing Offers Free Roof Inspections in Spring 2020

February 28, 2020

February 28, 2020 -
Marriott & Sons Roofing, based in Glen Burnie, Maryland, has announced that they are offering free roof inspections in Spring 2020. They will be providing a simple, no obligation estimate for any necessary roof repairs to protect the home from further damage. Homeowners and other property owners are advised to look for a number of indicators that signal the need for roof repairs. These include roof leaks; missing, cracked, or curling shingles; dark spots on the roof; and blistering of paint on interior and exterior.

Zachary Mathis, founder of Marriott & Sons Roofing, says ?At Marriot & Sons Roofing, we are a family owned and operated roofing company in the Glen Burnie area. We take pride in providing our customers with exceptional service along with the highest quality roofing materials in the industry. We are both licensed and insured and operate our business as roofing professionals.?

When the spring season starts, homeowners and other property owners may find that their roofs have been damaged by the snow and ice during the winter season. It is important to have the roof inspected to make

sure that any damage sustained by the roof is repaired. Ice dams or attic condensation may have occurred, leading to roof leaks and moisture build up that can lead to further damage to the home. But when roof damage is discovered, it is important to have the roof repair handled by professionals, which is why it is advisable to contact a professional roofing company like Marriott & Sons Roofing.

There are many reasons why homeowners should get the services of a professional roofing company. One of the key reasons is that a roofing company would be able to fix all of the roofing issues and can provide assurance that the work has been done properly. If the work is handled by those who are inexperienced and don?t have the proper tools and equipment, chances are that homeowners may end up with a poor quality roof and may encounter more problems in the future.

Ensuring that the roof is properly repaired or installed is vital because it protects the homeowner?s investments and most importantly, the whole family. The roofing solutions provided by Marriott & Sons Roofing for all residential jobs come with a top of the industry warranty. They want to point out that they have developed a good reputation in Maryland because of the way they educate and inform their customers in choosing the best roofing products and services within their budget range.

There are many different kinds and materials for roofs and deciding on the type of roof and the roofing material that would be best for the home is essential. This is because every type of roof shingle can offer a different level of durability, appearance, and level of quality. They find that asphalt shingles are the most popular material requested by homeowners. Details about their asphalt roofing service in Anne Arundel County at https://www.pressadvantage.com/story/34336-local-roofing-company-offers-asphalt-roofing-service-to-anne-arundel-county-residents.

Zachary Mathis points out that they are always focused on their client?s satisfaction. As such, they often provide updates regarding their work, assuring their clients that they are provided with quality results.

The customer services provided by Marriott & Sons Roofing include a number of things. These include easy scheduling of a roofing project with their friendly staff; professional roof evaluation to determine if the home requires a full asphalt shingle roof replacement or just a tune-up; appointment made through email or telephone; product elections consultations, including help in choosing the ideal shingles or roof type for the home and budget; fair roofing estimates with quality customer service; warranties that range from 10 years to lifetime; completion of most roof replacements in just one day; gutter replacements; and the fact that they work with insurance companies in ensuring a smoother claim experience.

Many customers have expressed their satisfaction with the service that they have received. For instance, Susan from Annapolis said, ?My experience with Marriott & Sons Roofing was fantastic. They were on

time and professional. They were knowledgeable about the type of roof and gutters I needed and they were able to schedule me before the next rain storm. Five stars.?

People who are interested in the free roof inspections or who require roof repairs can check out the Marriott & Sons Roofing website at https://marriottsonsroof.wordpress.com/, or contact them on the telephone. They are open from Monday to Sunday, 24 hours a day.
