There are many benefits of not only having a clean home but also from hiring a house cleaning company to do it. One of the main benefits of hiring a cleaning service is that it allows busy homeowners to create a schedule for services when it is most convenient for them. With Maid Service Direct?s online booking system,

website visitors have the power to customize their cleaning plan and choose extra services such as laundry washing, cleaning inside cabinets, and organizing. They can even give the gift of a home cleaning service to a friend or family member by sending them a gift card right from the company website.

To book a home cleaning by Maid Service Direct a visitor to their website would only be required to go through a few simple steps. Step 1: Who You Are - this is where the name, email, and telephone number would be entered; Step 2: Your Home - here the client would enter the address of the residence to be cleaned; Step 3: Choose Your Service - in this section the number of bedrooms is selected; Step 4: Select Extras - any extra services needed are selected at this point. In this section, the client would also choose the date, time, and how often they would like the house cleaning service to be provided. Clients can select a one-time service, weekly, biweekly, or monthly home cleaning. Discounts are provided when weekly, biweekly, or monthly cleanings are selected. Step 5: Select Payment - secure credit card payment is the option here. There are no actual charges until after the home cleaning job is completed and the client is completely satisfied.

Each step of the way during the booking process the client can view the sum of their charges in the "Booking Summary" section on the right side of the screen.

After completing an online booking with Maid Service Direct the customer support doesn't stop. Regular email reminders are forwarded to the client, which also makes them aware of the period they have to make any changes to the services they have ordered or cancel. The online communication process makes it easy to stay in touch with the company and the cleaners assigned to the job.
