

## CAS Med Spa Shares Recent Customer Review Praising Marietta Location

*February 22, 2020*

February 22, 2020 - PRESSADVANTAGE -

Marietta, Georgia based CAS Med Spa is reaching out to the wider community to share a recent client review that had high praise for their services. The spa is dedicated to helping people from all walks of life feel more comfortable in their own skin, using the latest methods in non-invasive beauty treatments. More information about their Marietta location can be found at the following link: [CAS Med Spa Marietta](#).

The 5-Star review in question, left by Ayesha Felix on the Google platform, reads, "My experience at CAS Med Spa was wonderful. I've had CoolSculpting treatments before at other providers but Cassie's team was better than my previous experience. They were professional, welcoming and just all-around pleasant. Not only that, but they have much better CoolSculpting applicators than what I had been treated with in the past, making the results much more effective. I'm happy to recommend this service to anyone who needs it."

Cassie Craig, Founder and CEO of CAS Med Spa says, "At CAS Med Spa, everything we do is aimed at helping our patients not just feel better about themselves, but become the best possible version of

themselves. We are all about unlocking your best self. We know how daily stressors can drain your energy, your passion?yourself. That?s why, for us, it?s a privilege to help you on your journey to becoming your best self.?

He continues, ?At CAS Med Spa, we partner with you on a customized treatment plan designed to meet your unique skin, body and beauty needs. Our approach is rooted in science, shaped by experience and designed to deliver results that last. You?ll feel confident, comfortable and empowered.?

CAS Med Spa provides a variety of services aimed at both women and men, who can benefit from skin treatments such as Platelet-Rich Plasma Therapies, SkinPen, Laser Therapies and so on. The spa also provides Botox, Fillers and Body Contouring services such as weight loss programs and more.

Furthermore, clients may opt for the clinic?s CoolSculpting services, which use a procedure known as ?cryolipolysis? to freeze fat cells that are then naturally excreted through the liver within a few weeks of treatment. According to the spa, the simple, safe and highly effective nature of CoolSculpting has led to its growth in popularity. Craig says, ?Everybody has a fixed number of fat cells that expand or contract as you gain or lose weight. What CoolSculpting does is freeze these fat cells to naturally destroy them, and fat will then be naturally eliminated from your body.? More information about CoolSculpting at CAS Med Spa can be found at the following link: <https://g.page/cas-med-spa---coolsculpting>.

Other reviews for CAS Med Spa also have nothing but praise for their services. On the Google platform, for instance, they hold a perfect rating of 5/5 Stars. Myrna Scheer says in her review, ?I've had cosmetic operations before but it was my first time with Botox at CAS Med Spa, so I was really nervous. However, Dr. Craig walked me through it and answered all of my questions, and it turned out better than I expected. Thanks so much!?

In another review, Chris T. says, ?I received a dermaplaning and dermal infusion service from Shoni. I have struggled with acne and acne scarring for what seems like ages, and Shoni not only made me feel confident without makeup but made my skin feel wonderful. Everyone was very welcoming and very considerate from the second I walked in. The pore clarifying with vitamin C dermal infusion really helped my skin go to the next level with clarity and brightness, but I also know that consistency is key! So, I have to keep it up. Thank you, CAS Med Spa!?

Those who want to learn more about CAS Med Spa and the various services they provide can find more information on the clinic?s website. Additionally, they encourage interested parties to get in touch with Cassie Craig directly via email or phone. CAS Med Spa also maintains a presence on Facebook where they
