

## CAS Med Spa Seeks To Entice New Patients To Canton Location

*February 24, 2020*

February 24, 2020 - PRESSADVANTAGE -

Canton, GA based CAS Med Spa is pleased to announce that they are taking on new clients. As the Canton medical spa wishes to help their clients bring their inner beauty to the fore through innovative and industry leading procedures, they hope their frequent promotional offers will help more people discover new horizons of beauty and confidence.

CAS Med Spa is primarily known for their expertise in three major areas: injectables, body contouring and skincare. Each of the services that fall under these categories are carried out by medical aestheticians who have a wealth of experience in helping clients lay out their body goals and then pursue a result that brings out their best selves. CAS Med Spa's staff are highly trained in their respective fields and universally dedicated to perfection—the clinic believes that their clients deserve nothing but the best. Similarly, they utilize industry-leading equipment and techniques to deliver on their promises. Clients can rest assured that the advice shared by the clinic's conscientious staff will always be in their best interests.

However, the clinic also recognizes that many may be on the fence regarding such treatments. CAS Med Spa states, "We know that you may be nervous about dipping your toes in for the first time if you have never undergone treatments of this sort. There are a few other concerns as well but that is what our consultations aim to remedy. All we ask is that you give us a chance to explain how we can help you bring out the new you, and it is our hope that our promotional offers will incentivize you to take that leap. Come talk to us, and we'll do everything we can to make you more comfortable with your journey." Learn more here: <https://g.page/CASMedSpa>.

CAS Med Spa clarifies that the offer also stands for those who have had treatments at other facilities before but are looking for their next trusted provider. All new clients of CAS Med Spa are welcome, whether they have any experience in the industry or not. On the other hand, the clinic is also pleased to inform their existing clientele that they may take advantage of the clinic's special offers as well. Certain terms apply to these offers, so clients who are interested in learning more are advised to contact the clinic for further details.

The clinic provides a range of services that new clients may be interested in. For instance, they may opt for Platelet-Rich Plasma Therapies, SkinPen, Laser Therapies, Botox and Fillers, Body Contouring and so on. While the opportunities are vast, each individual will have their own unique requirements, and some therapies and treatments will work better than others. To ensure that they get the most out of their time with CAS Med Spa, every client is entitled to a full consultation that will bring them up to speed on their own condition and the options at their disposal, along with the clinic's own recommendations.

Notably, CAS Med Spa has received many reviews and testimonials through online platforms that attest to their skill and the incredible value they offer their clients. In their 5-Star review, for instance, Kylie Langdon shares that, "I have never met a business owner as thoughtful and caring as Cassie. I come by with my two young girls for my CoolSculpting sessions, and she always makes sure we're all comfortable for the entire time. It's so nice to have a place as professional and welcoming as CAS Med Spa in our area. If you haven't come by yet, you're missing out!"

Similarly, Lisa Hardacre says that, "The Canton location of CAS has been amazing to me for my last few months of CoolSculpting treatments. Everything from the atmosphere to the staff to the service itself has been A+. The great CoolSculpting results are just icing on the cake, because I have a great time every time I visit Dr. Craig and the rest of the team. Thanks, guys!"

More information on CAS Med Spa's services and associated offers can be found on their website.
