

Tiffin Chiropractor is Pleased to Announce Her Name Has Changed

February 24, 2020

February 24, 2020 - PRESSADVANTAGE -

A popular Tiffin, Iowa Chiropractic specialist, Dr. Angela Overman D.C., is pleased to announce that she has changed her name. She is now going by the name of Dr. Angela Dunn D.C.

Dr. Dunn D.C. had this to say about her recent name change, "Although I will spare you the details, I am more than pleased to have taken on a name that means a lot to me. Rest assured that is the only thing that has changed about me. I will still be very dedicated to providing the best possible medical care and service to my patients. You can also still count on me to do everything in my power to make a positive difference in the health and lives of individuals in our Tiffin community; especially when it comes to those who suffer from chronic pain. I will always stay committed to partnering with you, your family and your primary care provider to offer cost-effective, innovative and individualized health care."

She also wanted to make sure that people know that just because her name has been changed doesn't mean that anything else about her practice changed along with that. Her patients can still take advantage of the same great chiropractic services she offers at the same Tiffin location. Dr. Dunn D.C.'s practice is still open the same hours too, which are Monday 8 am to 5 pm, Tuesday 8 am to 12 pm, Wednesday 9 am to 6 pm, Thursday 8 am to 5 pm, and Friday 8 am ? 12 pm.

Among the services that Dr. Dunn D.C. offers at her clinic are treatments aimed at helping alleviate pain for those who have been injured in car accidents. These types of accidents often seriously impact soft tissue areas of the body including the neck and spine. She says that chiropractic treatments for neck and spine injuries are not always performed just as a result of an auto accident either. They can also be used to treat musculoskeletal ailments that are caused by age degeneration, sports injuries and other types of trauma. Dr. Dunn D.C. went on to mention that back ailments are the number one reason that people seek Chiropractic help.

According to the doctor, migraine headaches are also something that they attempt to treat at her clinic. Many of these types of painful and potentially debilitating headaches are shown to originate in the neck area. Her chiropractic treatments are also aimed to help people that suffer from such ailments as Fibromyalgia and work-related injuries which include repetitive stress injuries.

Dr. Dunn D.C. also stated that she loves to maintain a friendly and relaxed atmosphere at her Tiffin clinic. She says many of her patients even refer to her on a first-name basis. Here is a testament to that statement in a review that Kelli E. wrote that says, "Stellar!!! Angela Rocks!! She has helped me overcome so much in just a short amount of time. I honestly cannot thank her enough. You know you've picked the right place the minute you walk in the door. The new patient process is a breeze and all the staff are just excellent to work with. Thank You! :) Thank You! :) Thank You! :).?"

Another patient, Amber W., had this to say about the service she received at the clinic, "Nice and very helpful staff. When I first saw Angela, I couldn't even walk through the front door due to pain. After a few visits, I am almost as good as new. The staff there are extremely nice and friendly. I highly recommend seeing them!" Dr. Dunn D.C. and Tiffin Family Care can also boast that a large majority of their ratings, such as the ones above, come in at a 5 out of a possible 5-stars.

For those that are looking for more information on what this Tiffin Chiropractor and her clinic have to offer, Dr. Dunn D.C. says they welcome inquiries by phone and email. She stated that the clinic's website is full of good information on all of the clinic's services too.
