

Glowing Video Review Praises SLFORCE's Personal Alarms For Women

February 25, 2020

February 25, 2020 - PRESSADVANTAGE -

SLFORCE is an online merchant that sells many variations of personal alarms on Amazon.com. One product in particular of theirs has been getting rave reviews. The company calls this product its SLFORCE Safe Personal Alarm Siren Song. One customer was so satisfied with the product that she even took the time to send in a video review.

The video review mentioned above was sent in by Lonna Harris who gave the product 5 out of a possible 5-stars. The video was short and to the point at 15 seconds long but it made sure to highlight how loud the alarms on these personal safety devices are. In the written portion of her review, Harris had this to say, "Been waiting on these. Pretty safe to say they are loud. All 5 came in a box. Giving my night shift girls these. Going to get more because safety is best. I highly recommend these. I won't leave home without mine." This video review can be seen in its entirety at <https://www.amazon.com/gp/customer-reviews/R2N6KCFGU6H6C7>.

Video reviews are not the only way that people have been expressing satisfaction with this SLFORCE product on Amazon either. Many users have taken the time to write reviews on these personal alarms too.

That includes this 5-star review from Talley who says, "I purchased a personal alarm because I enjoy walking alone during the late afternoon, early evening, and, as a senior citizen and female, I wanted that security. I was so pleased with the SLFORCE I purchased one each for my daughter-in-law and 14-year-old step-granddaughter. The item is small, attractively designed and easy to activate. When activated it sends off a piercing signal that should be easily heard. Thus far I haven't had to use it, however having it gives me a good feeling of security."

The overall ratings have also been very impressive on this personal alarm product. Out of 82 reviews on Amazon, the product averages 4.9 out of a possible 5-stars. Those who are familiar with the Amazon website know that very few products with this number of reviews ever achieve that type of average rating. There was not a single review out of the 82 that were written on these personal alarms that rated this product less than 4 out of a possible 5-stars.

Company representative Shahar pointed out that even though these devices are small, they are still packed with many features. That includes an alarm, an attached clip and even a small LED light that can be shone on car and home door locks at night to make them easier to open.

The highlight of this personal protection device, as the video review pointed out, is the loud alarm this personal safety device gives off when the trigger button on it is pushed and activates it. Those at the company say the alarms on the SLFORCE Safe Personal Alarm Siren Song products have been measured at 132 decibels. For comparison's sake, the sirens on most fire trucks are rated at 120 decibels. Shahar said that an attacker's worst fear is to have attention drawn to them and that is exactly what this device does.

These alarms can be easily used by children, joggers, hikers, campers, dog walkers, women walking alone, and others as a quick alert device that tells those in the nearby area that they are experiencing some sort of personal emergency. Shahar noted that these have even been used by the elderly in nursing homes to get the attention of nearby staff members.

The SLFORCE Safe Personal Alarm Siren Song products come packaged in sets of 5 and each set contains assorted colors. Each individual alarm is less than 2" x 1 1/2" and weighs under 8 ounces. Shahar says they will easily fit into small pockets or the user can attach them to themselves or a keychain using the provided carabiner clip. SLFORCE backs up this product with a 100% satisfaction guarantee.

More information on these personal alarms can be seen on its Amazon product description page which can be found at <https://www.amazon.com/dp/B07ZKZ7VTM>.
