D.I. Auto Care Offers the Convenience of Mobile Detailing in Phoenix

March 02, 2020

March 02, 2020 - PRESSADVANTAGE -

DI Auto Care is a company that has always tried to make getting car detailing done as easily as possible for its customers. Proof of that is the fact that they also do Phoenix mobile detailing. That means they will come right to their customer's Phoenix-area location to provide them with their advanced auto detailing services. This saves their customers significant time and effort when it comes to keeping their vehicles looking great.

Paul, the company spokesperson, had this to say about why they offer mobile detailing services, "There is one thing that most of us have too little of each day and that's time. Although we love working out of our own auto detailing shop, we also realize that people have to take time out of their busy day to get their vehicles to us and then get back to pick them up when we are done detailing them. We began to wonder how much more popular our services would be if we went to our customers Phoenix area locations instead of making them come to us. With the way our business has grown since we started doing offering mobile car detailing, we know we had made the right decision. Now our mobile detailing services are as or more popular than our in-shop auto detailing services."

The company spokesperson noted that they can offer their detailing services on a mobile basis because of the equipment that they use. He says they use leading-edge technology to get the job done and the finished product looks just as good as if they had detailed the car right inside their own shop. Their detailing services are available for cars, trucks, motor coaches, RVs, planes, boats, and even high-performance cars. Customers also have a choice of many different car coatings such as Carnauba wax and long-lasting and more protective advanced ceramic car coatings.

Paul went on to add that not only are their mobile detailing Phoenix services convenient but they are also available any day of the week. They book all of their mobile detailing services on an appointment basis. He says they will do whatever it takes to fit the car detailing work into their customers' schedules. That includes working evening and weekend hours if necessary. The company lists its availability as being Monday ? Sunday from 5 am to 10 pm. Not many companies give their customers such a wide choice of working hours to accommodate their needs.

The company offers many other related services that can be done as stand-alone services or in conjunction with their exterior detailing services. This includes their popular interior detailing services that not only make a car's interior look better but leave it smelling much better too. Paul says one of DI Auto Care's other popular services is window tinting. He says this is something that's a necessity for most cars with the bright sunlight the Phoenix area gets almost every day. Paul says window tinting should be done by professionals like them so it adds to a vehicle's looks instead of taking away from it.

The company's mobile detailing services also get high marks from those that have used them. Here is an example of that in a review by Sgkab H. that says, "A friend referred D.I. Auto Care to me to get my New Porsche Tinted and Detailed, I ended up going with the Ceramic Window Tint too because of my skin problems. He was on time and professional and my Cayenne Looks amazing. They came out to my house in the Ahwatukee Desert Foothills and it was really convenient for me." This 5-star review came from DI Auto Care's Google Maps business page. A large majority of the reviews on that page rate the company at 5 out of a possible 5-stars. The company's overall rating on the 33 reviews found on their Google Maps business page is a very favorable 4.8-stars.

Paul says that for those in the Phoenix area who are looking for the convenience of "mobile detailing near me?", all they have to do is give the company a call to learn more about their services or to get a free quote for the work.
